2012 monadnock catalog

SAVE 1724 On January 3, 2010 Officer Conley arrested a man for DUI. After processing the suspect, and as the suspect had no criminal history, he released the man to his wife and intended to file charges. The suspect upon his release and return home retrieved a .357 magnum revolver and returned to the police station where he lay in wait outside the entrance. When Officer Conley exited the station to retrieve a power bar from his cruiser the assailant shot him in the back, 1.5 inches from the bottom edge of his ABA XT2-9 directly over his spine. The armor stopped the round and Officer Conley turned and returned fire while moving to cover. A running gunfight ensued and Officer Conley's partner joined by returning fire from inside the station. Both officers hit the assailant with fatal shots. The surgeon told Officer Conley the round would more than likely have been fatal.

Officer Justin Conley
Mt. Orab Police Department

PROTECT AND RESTRAIN

MONADNOCK

The Monadnock® brand has defined the state of the art in batons and training aids for more than half a century. Our batons are the preferred choice of law enforcement professionals around the world. Under the Safariland® umbrella, we continue our heritage and expertise to focus on our primary objective: providing the highest quality products to the men and women who depend on them every day. Law enforcement officers choose to carry American-made Monadnock batons over other competing brands. The reason is simple. We build them better.

QUALITY YOU CAN COUNT ON...GUARANTEED

When you carry a Monadnock® baton, you carry more than 50 years of quality, innovation and attention to detail. From the ever-popular PR-24® design to our expandable AutoLock® positive locking models, and everything in between, you can count on Monadnock. Our baton products are proudly made in America and carry with them our legacy Limited Lifetime Repair or Replacement Guarantee.

AUTOLOCK®

The technologically advanced, patented AutoLock baton is ready at hand when you need it and out of the way when you don't. It's easy to expand, and when it's time to close, simply push the button in the end cap. No need to look for a hard surface to collapse the baton.

- The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Closes with a push of a button—no need to strike the baton on the ground
- Open passively or in a high-profile manner
- Rotating shafts help maintain control of the baton during a struggle
- Choose from a variety of tips and grips

Classic Friction LOCK BATONS

The Classic Friction Lock baton gives you confidence, comfort and choices. With a wide variety of tips, grips, finishes and sizes, you can select the baton that's right for you and your duty requirements.

- The distinct sound of the baton expanding sends a signal to the suspect that you are armed and ready
- When you want to maintain the element of surprise, pull the shaft out by the patented *Power Safety Tip*®, which provides more weight-forward kinetic energy, allowing the baton to open faster in a combat situation. *Safety Tip*® also available
- Standard tip is open with a flick of the wrist
- Comfortable to carry and easily opened with a flick of the wrist
- Morse tapers, the tight locking joints, make the baton feel solid in your hand
- The end cap utilizes a bore guide that centers the tip end shaft over the retention spring, helping to prevent retention-spring breakage that often occurs in non-Monadnock end-cap designs
- Choose from a variety of tips and grips

PR-24® Control Batons

In law enforcement there's no room for second guessing. You've got to have that same confidence in your equipment. That's why more agencies choose PR-24® Control batons, the most field-tested batons ever made.

- PR-24 side-handle batons offer maximum protection and the professional advantage
- Most field-tested baton for blocking, controlling and striking
- Rigid and expandable models available
- Expandable baton is combat ready with a flick of your wrist and closes easily with the push of a button
- Positive-locking baton is designed for close-quarter confrontations
- Trumbull Stop handle keeps the baton in your hand, and increases baton retention and subject-control

TIPS, GRIPS AND FINISHES

Monadnock batons feature a wide variety of grips, tips and finishes to allow you to choose the tool that best fits your duty requirements.

TIPS

Standard Steel Tip

Allows for opening the baton in a high-profile manner; may gain psychological advantage for officer over subject.

Safety Tip®

Reduces sharp edges; urethane covering allows passive drawing of the baton.

Power Safety Tip®

Engineered to put more weight forward to better balance the baton in the hand and improve kinetic energy transfer at the moment of impact. The larger tip surface may turn a subject's pockets inside out, reducing the risk of getting stuck with sharp objects.

3xT Tactical Training Targeting Tip

Featuring the Power Safety Tip that helps criminal justice professionals improve their striking skill because they can clearly see the track of the baton's tip during demonstrations, practice and/or in the street. Lime green only.

GRIPS

Foam Grip

Offers the highest tear strength and allows quick access from the Front Draw® Holder.

Super Grip®

The fluted surface texture provides excellent baton retention in and out of the holder.

Grenade Grip

Offers a ridged handle design for a sure grip.

Knurled Grip

The knurled grip enhances baton retention while performing strikes, blocks or jabbing techniques.

DEPARTMENTAL TEST AND EVALUATION

This risk-free program is designed to allow agencies to test our products firsthand, before purchasing. That way, our customers can be 100% certain which batons best meet the needs of their agencies. Participants in this program are under no obligation to make any purchases. To take part in the Monadnock Departmental Agency Test and Evaluation Program, simply call us at (800) 347-1200 or for Intl (904) 741-5400, or fax your request to (800) 366-1669. Some of our products require training, demonstrations and / or instructions. Our sales team and technical specialists have a great deal of experience with our products.

AUTOLOCK®

STRENGTH YOU CAN COUNT ON

- Patented locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Open passively or in a high-profile manner
- Closes with a push of a button—no need to strike the baton on the ground; easy to open with either a flick of your wrist or a simple pull to achieve a passive draw
- Rotating shafts help maintain control of the baton during a struggle
- 18", 21", 22" and 26" (45.72 cm, 53.34 cm, 55.88 cm and 66.04 cm)
- Choose from a variety of tips and grips
- Lifetime repair or replacement guarantee
- Made in the USA

6500 AutoLock® Starter Service Kit

- Kit allows you to service, repair and maintain the AutoLock baton when necessary
- This armorer's kit includes releases, rods, springs, cams, pliers, ball bearings, etc.

6500 Full Service Kits

- Also available for 6500-16/18". 6500-21-22" and 6500-26" options

CLASSIC FRICTION LOCK

GET TOUGH ON CRIME

- Constructed of durable 4130 aircraft alloy steel tubing and feature Morse tapers—the tight locking joints—that make the baton feel solid in your hand
- Comfortable to carry and easily opened with a flick of the wrist
- Open in a low-profile manner for the element of surprise - simply pull on the Safety Tip® or Power Safety Tip® to extend the shaft; provides for more of a weight-forward kinetic energy, allowing baton to open faster in a combat situation
- When the baton tip strikes a hard surface, the weight in the tip helps it close by providing additional shock to unlock the shaft
- 16", 18", 21", 23" 24" and 26" (40.64 cm, 45.72 cm, 53.34 cm, 58.42 cm, 60.96 cm and 66.04 cm)
- The distinct sound of the baton expanding sends a signal to the suspect that you are armed and ready
- The end cap utilizes a bore guide that centers the end shaft over the retention spring, helping to prevent retention-spring breakage that often occurs in non-Monadnock end-cap designs
- Offered in both Detective® and Mariner series
- Limited Lifetime Repair or Replacement Guarantee
- Made in the USA

HOLDERS

Monadnock offers a wide selection of baton holders in different styles and materials to fit the needs of each of its batons. Safariland and Bianchi Duty Gear also offer baton holders for several Monadnock baton styles.

FRONT DRAW® for AutoLock® Batons

- Designed with clip-on backs specifically for the AutoLock batons; also available in slide-on versions; design allows holder to slide off belt without having to strip the whole belt
- Made from durable polycarbonate, all holders feature a molded tension spring for baton security
- Rotates 360° and locks in one of 8 locking positions; also available in a version that rotates only 45° forward and backward
- Baton may be re-holstered in the locked position either open or closed, as necessary, saving time to control the suspect
- Accommodates either the Foam grip or Super Grip®
- 21" (53.35 cm) baton holder has the half-moon bottom for Safety Tip® style batons
- 18" (45.72 cm), 22" (60.96 cm) and 26" (66.04 cm) baton holders have a concave bottom to be able to receive the Power Safety Tip® style baton
- Available in high or low carry models
- Fits 2.25" (58 mm) belt widths; finishes: Plain, Basketweave

Note: It is important to choose the appropriate holder for the style of AutoLock used. This is to facilitate the ability of the officer to put the baton in the holder while in the locked open position

FRONT DRAW® for PR-24®, Classic Friction Lock & Straight Expandable Batons

- Offered with clip-on or slide-on backs; design allows holder to slide off belt without having to strip the whole belt
- Made from durable polycarbonate, all holders feature a molded tension spring for baton security
- Rotates 360° and locks in one of 8 locking positions; also available in a version that rotates only 45° forward and backward
- Baton may be re-holstered in the locked position either open or closed, as necessary, saving time to control the suspect
- Accommodates either the Foam grip or Super Grip®
- 21" (53.35 cm) baton holder has the half-moon bottom for Safety Tip® style batons
- 18" (45.72 cm), 22" (60.96 cm) and 26" (66.04 cm) baton holders have a concave bottom to be able to receive the Power Safety Tip® style baton
- Available in high or low carry models
- Fits 2.25" (58 mm) belt widths; finishes: Plain, Basketweave

35 Baton Holder

- For expandable batons
- Extended batons can be reholstered
- Fits 16" (406 mm), 21" (533 mm) or 26" (660 mm) lengths
- Available in SafariLaminate™ Plain, Basket, Hi Gloss and STX Tactical™

NEW SAFARILAND MODEL 134 Baton Holder

- Designed specifically for the AutoLock® Defender™ baton
- Baton may be re-holstered in either open or closed position
- Features the Safariland 745BL Belt Clip that fits belt widths from 1.5" (38 mm) to 2.25" (58 mm)
- Belt clip is user adjustable for cant angle
- Designed for cross draw carry (right hand model will sit on left side of body)

HINDI BATON CAP™

Tested and proven to be the safest, most effective baton accessory to date, the Hindi Baton Cap™ offers unparalleled advantages, and comes endorsed and recommended by numerous police agencies, top trainers and use-of-force experts.

Baton Retention

- Quicker way for your hand to identify and locate baton while in holder
- Safer, more reliable baton grip from slippage or loss during draw
- Faster, more comfortable draw in any situation, from any style holder or duty belt position
- Maximum retention—prevents baton loss when baton expands open
- Quick to pick up baton if dropped
- Available for AutoLock® and Classic Friction Lock batons

Advantages During Physical Altercations

- Maximum striking power and increased leverage
- Unsurpassed grip retention during momentum of baton swing or force of impact
- Added length to baton, eliminating standard method of choking up on the baton handle
- More consistency in striking distance and target accuracy
- Blocks against deliberate suspect takeaways

Safer, More Effective Striking Capacity

- Larger surface area produces a greater energy transfer for maximum striking effectiveness
- Smooth, round surface will not penetrate, rip or tear the skin
- Safer to the suspect without limiting the use of force
- Safer, more effective striking alternative in the escalation or de-escalation of force

HINDI BATON CAP™

Part No.	Description	Designed For
6210	Hindi Baton Cap™	Monadnock® Classic Friction Lock Batons
6211	Hindi Baton Cap	Most Other Friction Lock Batons

6214	Hindi Baton Cap	AutoLock 26" (66.04 cm) Batons
6216	Hindi Baton Cap	AutoLock 16" (40.64 cm) and 18" (45.72 cm) Batons
6221	Hindi Baton Cap	AutoLock HG 21" (53.34 cm) and 22" (55.88 cm) Batons
6218	Hindi Baton Cap	Friction Lock Swivel Button, Nylon Cord

WINDOW BREAKER

- Made of a hardened steel tip with rubber cap
- Fits over the baton tip and can be used to gain entry to a home, vehicle or other structure that is otherwise inaccessible
- Easy on and off application; fits Standard Tip, Safety Tip® and Power Safety Tip®
- Fits a variety of Monadnock and other batons
- Small enough to be carried in your pocket or gear bag
- Just a tap and the window breaks; repeated strikes are not necessary
- Side window application suggested
- Remove after use as it is not intended to be used with standard baton techniques

TRAINING AIDS

THE FINEST TRAINING AIDS FOR THE FINEST PRODUCTS

Proper training with the right tools makes all the difference. Our line of practical training aids significantly enriches learning during practice exercises. Resistance training builds confidence. Our Universal Training Bags and foam batons can be used during dynamic or scenario training to improve skills and reduce the risk of injury.

NEW

5120 Monadnock® Practice Suit

- Color-coded based on the escalation-of-trauma charts
- Provides realistic training opportunities
- Easy to put on and take off
- Breathable liner
- Cleans with soap and water

HELMET STYLE
NEW FOR 2012

5103/5105 SB-WT

- High density, closed-cell foam training baton
- Flexible for lower impact
- 2 sizes:
5103 - 24" (60.96 cm); 1" diameter
5106 - 36" (91.44 cm); 1.5" diameter
- Color: White
- Weight:
- 24" 9.4 oz.
- 36" 9.8 oz.

5106 Ultimate Straight Training Baton

- Durable DuPont® nylon material covers a neoprene sleeve, which is applied over a rigid core
- Tip is dipped in vinyl for added strength and durability
- Energy-absorbing construction allows general and / or specialized scenarios to be performed with greater ease and comfort

5101 PR-24 STSWT

- High density, closed-cell foam training side handle baton
- Color: White
- Weighs 10 oz.

5107 Ultimate Side-Handle Training Baton

- Durable DuPont nylon cover
- 1/2" closed high-density cell foam
- Tip dipped in vinyl

5002 Universal Training Bag (UTB)

- Helps bridge the gap between static and dynamic movement in training
- Tactically used for baton physical encounter training:
 - Simulated training scenarios
 - Punching, kicking, elbowing, kneeing, etc.
 - Action-reaction response drills, including unarmed self-defense training and baton training
- Easy to carry and store

5006 Universal Training Bag 2 (UTB2)

- Features a high-tech Force Deceleration Core to dissipate training blows from knees, elbows, fists or training-baton strikes with ease and comfort
- Offers six hand positions to create multiple target positions around the human body, which develops target acquisition and application skills for more realism in training
- Easy to carry and store

FORENSICS

FORENSICS SOURCE™

QUALITY BRANDS FOR FORENSICS PROFESSIONALS

Forensics Source™ serves as a one-stop shop for the finest forensics products for all types of investigative, collection, processing and lab-related activities. These products are marketed under the Forensics Source umbrella and are built on our legendary commitment to innovation, quality and customer care. Our goal is simple: to provide forensics professionals with access to the best products available in the forensics market.

Our commitment to delivering exceptional customer value is reflected in our commitments to manufacturing certifications and environmental responsibility. We are proud of our current ISO 14001 and OHSAS 18001 certifications. Just announced is our ISO 9001:2008 certification, the first in forensics manufacturing. This will allow us to continue building on the Forensics Source legacy of innovation and quality for years to come.
