CONVEX STUD MIRROR WITH RING

• 140mm Diameter
Includes protective rubber ring

Code SE000400 (Handle sold separately)

RIGID HANDLE & TORCH

• Rigid handle fitted with a D Cell torch, useful during searches carried out in low light levels
Measures 0.5m. Made from rigid steel. NATO stock number 5120-99-236-1592. MIRROR SOLD SEPARATELY.

Code SE000300

TELESCOPIC HANDLE

• Telescopic handle : Closed measures just 480mm, extended 1.6m
A twist and lock mechanism handle, means the handle can be locked at any length. Made from anodised aluminium. NATO stock number 5120-99-723-8872. MIRROR SOLD SEPARATELY.

Code SE000100

TELESCOPIC HANDLE & TORCH

• Telescopic handle fitted with a AAA Cell torch, ideal when searching in low light levels.
When closed, the four section handle measures just 480mm, and will extend to 1.6m. Arm which will accept a variety of mirrors. A twist and lock mechanism means the handle can be locked at any length. Made from anodised aluminium. NATO stock number 5120-99-484-3306. MIRROR SOLD SEPARATELY.

Code SE000200

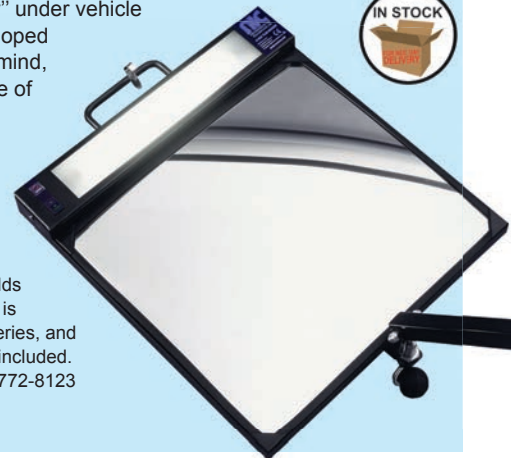

PREVENTION IS BETTER THAN CURE!
PROACTIVE SECURITY, SEARCHING & MONITORING KEEPS STAFF & CUSTOMERS SAFE.

UNDER VEHICLE SEARCH MIRROR

• Robust "Wheeled Trolley" under vehicle mirror, designed and developed with security personnel in mind, for searching the underside of vehicles

Unbreakable polycarbonate mirror provides a wide angle image, illuminated by a powerful 12v 8 watt fluorescent tube. The "T" handle, which assists in tilting the mirror, is telescopic and folds away when not in use. Power is supplied by rechargeable batteries, and a charging system for 240v is included.
NATO stock number 5120-99-772-8123

Code SE001800

Searching is an emotive task which requires tact and diplomacy.

The use of a hand held detector as part of your operational tasks can help to reduce the risks of confrontation. Hand held detectors enable you to search quickly, thoroughly and professionally, thereby allowing you to concentrate on positive targeting for more in depth searching, as required. Hand held detectors have no gender factor, customers of both sexes can be searched by the operator.

UNIVERSITIES

ADAMS AD10-2 METAL DETECTOR

- Sensitivity to 0.1 grams detection mass
 - Alarm Indication: High intensity L.E.D. and piezo sounder - simultaneously
- Our general-purpose hand held metal detector. 24 hour continuous use in the toughest of working environments. After many years of reliable service the model AD 10-2 is now supplied world wide to Airports, Police Forces, Federal, and State Departments, as well as Military and many other highly demanding users.

Code AD10-2

ADAMS AD11-2 METAL DETECTOR

- Sensitivity to better than 0.1 grams detection mass.
- Simultaneous audio/visual alarm facility, with two-position rocker switch, to turn off the audio sounder, giving the operator a "visual only" alarm indication for more discreet user-operation

Code AD11-2

ADAMS AD11-V METAL DETECTOR

- Simultaneous audio/visual alarm and vibrating facility
- Two-position rocker switch to turn off the audio sounder, giving the operator a "visual only" alarm indication for more discreet user-operation
- Suitable for similar applications as our model AD10-2, with increased sensitivity to better than 0.1 grams detection mass.

Code AD11-V

ADAMS AD16 METAL DETECTOR

- Super high sensitivity - effective for locating even tiny metal objects that may have been concealed, or even ingested within body cavities, with pinpoint accuracy
- Supplied with training video or CD ROM. Highly respected and widely used hand held metal detector. Supplied to the Federal Bureau of Prisons in the USA. Fully adjustable detector to allow for "maximum find capability." Features a two-position rocker switch or "Turbo Control," to the left of the on/off switch.

Code AD16

ADAMS AD17 METAL DETECTOR

- Features a two-position rocker switch - Change from general purpose to High sensitivity
- In the back position the rocker switch enables the AD17 to perform as a very effective, general-purpose metal detector with a very high operational speed. However, with the rocker switch in the forward position the AD17 converts to a super high sensitivity unit, capable of detecting very small masses of metal that had previously been undetected, but with the ease of use of a fully automatic unit, with just the flick of a switch.

Code AD17

ADAMS AD18 METAL DETECTOR

- Features a two-position rocker switch - Change from general purpose to TURBO High sensitivity
- In the back position the rocker switch enables the AD18 to perform as a very effective, general-purpose metal detector with a very high operational speed. However, with the rocker switch in the forward position the AD18 converts to a super high sensitivity unit, capable of detecting very small masses of metal that had previously been undetected, but with the ease of use of a fully automatic unit, with just the flick of a switch.

Code AD18

GARRETT THD METAL DETECTOR

GARRETT THD

BELT HOLDER INCLUDED

- Quickly and effectively targets all ferrous, non-ferrous and stainless steel weapons, contraband and other metallic objects.
- Its unique 360°, 3.5 inch detection area allows unrestricted scanning angles for fast and accurate hands-free body searches.

Three LED function lights are included on the THD. Green = On. Amber = Battery low Red = ALARM Metal detection.
Specifications: Indicators: Silent / Vibration. Controls: Power switch (ON / OFF). LED flashlight (Momentary). Battery: Single 9V <80 hours operation.
Dimensions: Length 8.43" (22 cm), Thickness 1.625" (3.8 cm) tapered to 1.125 (2.9 cm). Scan Area 3.5" (8.0 cm). Weight 6.4 oz. (200 g). Warranty: Limited, 24 months parts and labour. Colour: Black

Code GARRETT4

METAL DETECTOR MIT

GREAT FOR ON THE DOOR

- Operator can detect the standard weapons (small knives, guns etc.) and yet have the extra sensitivity to frisk for tiny metal objects, as small as a book staple - or even smaller! Ideal for airport security, prisons and police work, to night clubs and public events
- A metal detector that you wear! That leaves your hands and fingers free to search, defend or restrain. Ergonomic and comfortable enough to be worn continuously by any law enforcement officer or security guard throughout a shift.

Code AD-MIT

DEFENCE MARKER SPRAY UV

100% STREET LEGAL
STAINING PURPLE DYE
INVISIBLE UV TRACER
4-5 METERS RANGE
MARKS FOR 48 HOURS

- The Defence Marker Spray (DMS) is an aerosol spray which has been formulated to professional standards.
 - Made from clear water and a specialist colouring, it will produce a vivid purple mark and UV tracer that is designed to "Tag" or "Mark" the offender.
- The harmless dye will stain the skin and the invisible UV will aid to facilitate arrest for a period of days. The purple spray is sufficient to distract and startle a subject long enough for the user to either escape to safety or use a restraining method.
- They do not require any strength to use and are 100% street legal. Compact and easy to use they can be carried in a pocket or bag. They are inexpensive, practical and ideal for professional security or to keep civilians safe.

Ingredients: DMS: Water, Purple dye and UV dye. DMS does NOT contain tear gas or pepper spray.

Code DMS001

DEFENCE MARKER SPRAY UV

- H2O spray will allow you to practice and master the very simple techniques required for accurate delivery of the spray.
- The H2O spray is also ideal for use within retail environments where the dye could damage stock.

The canister is exactly the same as the DMS canisters, but they contain only water. The H2O training spray allows you to practice how you would use your DMS self defence spray in an attack situation, without turning anyone purple! The H2O

canister is perfect for training exercises. Ingredients: H2O: Water

Code H2001

DNA PERSONAL ALARM

- Contains a different and unique DNA code combined with an UV identifier spray. Clings to an attackers skin and clothing to provide the Police with a positive DNA link to the crime! No two alarms have the same DNA code. Includes an ultraviolet identifier. Ear piercing 138 decibel siren. Alarm & owner are registered free on Databank. Non toxic and non-hazardous. Uses well proven aerosol and DNA technologies. Manufactured in the UK.

Code WE141

DNA PROPERTY MARKER SPRAY

- "The Ultimate In Property Security"
 - No two DNA Marker Sprays have the same DNA code
- Each DNA Marker Spray contains one hundred thousand billion molecules of the unique DNA, mixed with an ultra violet identifier. Adheres to metal, wood, plastics, ceramics, etc. Provides a positive DNA identification of your property in the event of theft. Check with the included UV light. Both the DNA Marker and owner are registered free on Databank.

Code WE500
