NITON TACTICAL™ KNEE/SHIN PADS

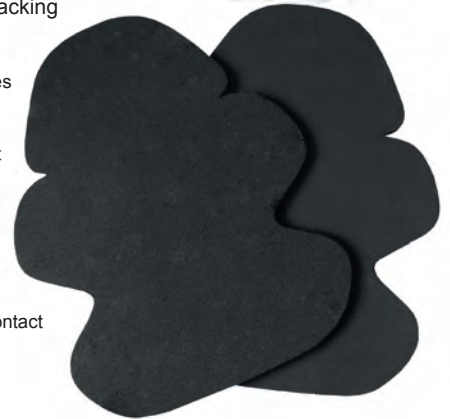

- 3/8 inch neoprene with nylon backing
- Designed to contour with knee

At the range, on duty or just kneeling down - these pads will give your knees the protection they need. High quality neoprene they can take the wear and tear of the heaviest Law Enforcement professional.

Our Knee & Shin Pads offer protection to the Tibia when standing and the Patellar Tendon and Anterior Tibial Tubercle when kneeling (The Tubercle is the knobble at the top of you shin bone which is the point of contact most often).

Colour Black.

Code TAC58

NITON TACTICAL™ ELBOW PADS

- 10 mm shock absorbing pads with non slip material
- Made from neoprene for comfort

Hook and loop elastic closures. Fully flexible and ultra lightweight for extra comfort with long term wear. Can be worn under or over clothing.

Colour Black.

Code TAC58

• Bellowed cut to make them comfortable in sitting and prone positions
• 65% Polyester 35% Cotton mix for maximum durability
Our Coveralls are made to the highest specification. Made from poly cotton mix 65% Polyester and 35% Cotton they will wash and wear with the minimum care. Made with reinforced elbows, knees and seat they are made to give outstanding service. The back of the overall is bellowed cut to make them comfortable in sitting and prone positions. These are ideal for the firearms officer or dog handler who needs the flexibility of an overall. Leg and chest pockets and flash hood.
We also make more specialised overalls to customers specifications or designs. If you require this service please contact us.

COMPLETE UK M.O.E. KIT

- Complete MOE kit designed and approved by UK special forces
- Designed for Britain's elite SAS
- Hook and loop cover keeps tools quiet, secure and hidden while allowing instant access. It's padded with fully adjustable shoulder straps. There is closed-cell foam padding over the entire back area and each tool is fully secured in its own compartment and strap system. The pack also has "under the leg" straps to keep the pack in place during running, climbing, etc. The straps prevent the pack from falling to one side or going over the head during extreme body movements. Includes Electrashield Boltmaster, Sparkarrestor Hallagan Tool and Thunderbolt Monoshock Ram. All contained in a custom made backpack carry bag.

Code DE-UKMOEK

BACKPACK COMPLETE KIT

- Designed to carry a SOHT Hallagan tool, a Thundermaul Sledge Hammer and Boltmaster Bolt Cutters.
 - (DE-SOHT, DE-TM, DE-BM, DE-METP)
- It is made of 1000 denier NyTaneon nylon and is heavily padded with closed cell foam. Each tool has its own pouch and hook & loop retention straps. The backpack itself is contoured to the shape of your back. The shoulder and chest straps, along with the waist strap are fully adjustable.

Colour: Black

Code DE-TBK-B

PADLOCK BUSTER

- Non-sparking duckbill design and an electrically non-conductive handle.
- Safe guard hand grips reduce injury to the operator, assisting in proper hand placement. Effective in defeating most non-commercial padlocks. Colour: Black

Code DE-PB

THUNDERSLEDGE HAMMERS

MINI THUNDERSLEDGE: Extremely useful in stealthy situations where a smaller sledge is required. The smaller size is ideal for close quarter breaching situations. Colour: Black

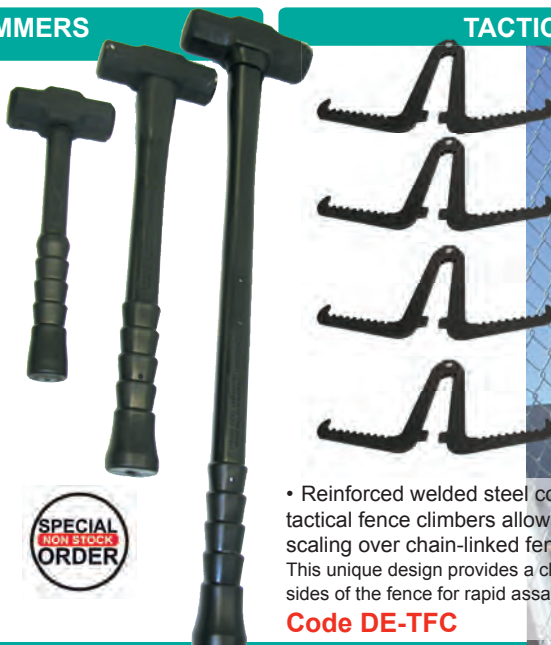

Code DE-MTS

ELECTRASHIELD THUNDERSLEDGE: Handle is constructed, utilizing a solid fibreglass core surrounded by a polypropylene jacket. Electrically non-conductive up to 100,000 VAC. This handle system resists cuts and reduces shock during over blow situations. Colour: Black

Code DE-TS

MICRO THUNDERSLEDGE: Its smaller size allows for ease of use in multiple tactical situations. Extremely versatile Micro ThunderSledge features the same safety characteristics as its larger counterparts. Colour: Black

Code DE-MCR

TACTICAL FENCE CLIMBER

- Reinforced welded steel construction of our tactical fence climbers allows for safe and rapid scaling over chain-linked fences. This unique design provides a climbing rung on both sides of the fence for rapid assaults. Colour: Black

Code DE-TFC

THUNDERBOLT CLOSE QUARTER

- When door-breaching speed is required for lightweight exterior and most interior doors, the CQB is the ram of choice. The over sized control-flex handle allows breachers to position themselves in a safe zone even in cramped breaching situations. The CQB is electrically non-conductive and non-sparking. Colour: Black
- Code DE-CQB**

SUPER BOLTMASTER

- A step up in size from the Boltmaster, the Super Boltmaster is a premium hardened steel bolt cutter of the highest quality. The Super BoltMaster handles are made of non-conductive material. When you need a little more leverage to defeat those really tough locks, the Super Boltmaster delivers all you need and more. Colour: Black
- Code DE-SBM**

SPARKARRESTOR GORILLA BAR

- Big brother to the Hallagan tool, our Gorilla Bar features friction ridges on the wedge creating an extremely functional prying tool. The fibreglass shaft is self-extinguishing and will not burn when removed from direct contact with a flame. Colour: Black
- Code DE-GB**

THUNDERBOLT MONOSHOCK RAM

- Compact size facilitates big swings in tight quarters
 - Non-conductive, non-sparking
- For one officer, reliable door-shattering can be the difference between successful entry or a failed operation. With 8618.4 kg or greater kinetic force. Monster "sweet spot."
- Code DE-MS**
- This two-man entry ram features the identical manufacturing standards as our legendary Monoshock Ram. Designed for two man teams, the Twin Turbo is effective during reinforced breaching situations. Colour: Black
- Code DE-TT**

ELECTRASHIELD BOLTMASTER

- Hardened steel bolt cutters with advanced polymer handle
 - Non-conductive to 100,000 Volts - insulates you from lethal levels if a powerline is severed
- Lightweight with advanced camming action for tremendous cutting force. Replaceable cutting teeth. 61 cm. 2.3 kg. Jaw opening: 1 cm.
- Code DE-BM**

SPECIAL OPS HALLAGAN TOOL

- A favourite among tactical assault teams and police departments, the Special Operations Hallagan Tool, known as the SOHT, is compact and versatile. Featuring a unique combination of alloys and casting orientation techniques that make both working ends non-sparking, essential for entry actions in volatile environments. The SOHT also features a newly designed electrically non-conductive handle. Shaft composite construction is electrically non-conductive to 100,000 VAC. Colour: Black

Code DE-SOHT
Code DE-SHTB

Stainless

THOR'S HAMMER

- The hammer design allows the breacher to position themselves parallel to the doorframe avoiding the fatal funnel
- Thor's Hammer has earned a solid reputation among breaching teams as a versatile compliment to the standard battering ram design, after action reports have shown the Thor's Hammer to be effective on lightweight exterior and most interior doors. Colour: Black
- Code DE-TH**

THUNDERMAUL

- Drop forge heat-treated carbon steel striking head with a nick resistant tempered blade. The ergonomically designed Sure Grip handle system reduces the possibility of the tool slipping out of the operator's hands during breaching operations. Colour: Black
- Code DE-TM**

SPARKARRESTOR HALLAGAN TOOL

- Entry tool is made so that both working ends are non-sparking
 - Forked end and horn gives maximum leverage
- Essential in accidents or entry actions in volatile environments. Measures 76.2 cm. Weighs 4.3 kg.
- Code DE-HT**

PLEASE NOTE THAT ON ALL ENTRY TOOLS POSTAGE & PACKING IS CHARGED AT COST

HARD CASES

PELI PROTECTOR CASE

For more than 30 years Peli has built a reputation for manufacturing the toughest Protector™ Cases in the world. As a matter of fact, they invented the category. The Peli Protector™ Case has been thrown out of helicopters in Iraq, towed along frigid fjords in Norway, and rolled over by SUVs in Tanzania. With only a few scratches to show on the outside, contents are left unscathed.

NITON TACTICAL EVERY DAY CARRY BAG (E.D.C)

If you're working, going on holiday or even hiking through the forest, you can carry all your essentials in one functional, comfortable and secure bag.

Details: This Every Day Carry Bag (EDC) has been designed to provide the ultimate in versatility. If you're working, going on holiday or even hiking through the forest, you can carry all your essentials in one functional, comfortable and secure bag.

FUNCTION - Keep all your essentials in one place. The main compartment has a mesh pocket and dividers to hold pens, torches, multi-tools, phones, cameras and more - We managed to get all this and a NetBook in ours.

A further 5 pockets allow you to carry documents, first aid supplies, and 1 litre drinks bottle, with the zippered special access pocket ideal for carrying a medium sized handgun or baton and handcuffs.

Extensive Molle and Velcro attachments mean that you can add even more pouches and ID.

COMFORT - Stylish design with maximum comfort for long days at work...or exploring on holiday! A padded shoulder slide protects your shoulder and prevents the strap rubbing your clothes. The adjustable strap means you can position the bag to suit you. We've even padded the back of the bag to protect you from any protruding items.

SECURITY - Whether working or travelling, keep sensitive items close and secure.

A quick release buckle on the strap means you can remove the bag instantly in an emergency. The main compartment has a quick release buckle and a drawstring closure to deter pickpockets and stop water ingress. We've also added a belt keeper to the back of the bag so you can keep the bag securely positioned where you want it.

The Niton design team have manufactured a bag that will carry all your essentials, without being big and bulky. This bag is durable enough to be worn on duty and stylish enough to be worn off duty. The Niton EDC bag means you can be ready for anything, no matter where you are.

Code TAC83

- Front Pockets: 3 large pockets ideally suited for 5.56 magazines.
- Side Pockets: 3 side pockets suitable for side arms ammo, flashlight, knife and radio / phone.
- Large main compartment: Velcro closure conceals two internal pockets ideal for water bottles or stun / smoke grenades.
- Back panel: Concealable clear pocket, ideal for maps - providing concealed instant access.

The Niton Bug Out bag is small enough to remain practical when exiting a vehicle but large enough to carry all of your essentials. Designed to meet the needs of Special Forces and officers who need to move in a hurry. Designed to be worn like a messenger bag, the Niton Bug Out Bag has an adjustable shoulder strap and quick release belly band for minimum movement when moving at speed or exiting a vehicle. Worn close to the body allows for easy but secure access to all pockets and pouches.

NITON TACTICAL BATTLE BOARD

The Niton Tactical BATTLEBOARD is a mobile solution for all major incidents, evacuations, or pre planned operations. Small enough to be kept in the boot of a car or in an emergency incident cupboard for rapid deployment, yet large enough to run the most complicated incident or tactical operation. Fits on the bonnet of the car or you can hang it from a fence or command vehicle. Folds up in seconds keeping your operation coordinated as the situation changes allowing you to relocate quickly if required.

- 1000D Texturised nylon
- Removable 2mm Perspex with clips on Front & Back
- Shoulder Strap & Grab handle
- 1 Envelope Front Pocket for Large Scale Maps
- 4 Small, 2 Medium, 1 Large Tab close pockets
- 1 mesh pouch, pen holders & removable key hanger

With the Niton Tactical BATTLEBOARD you can quickly, easily, and in an organised manner, collect, record and recall all the necessary information that is critical to the incident. You can customise the contents to fit your needs to provide a consistent system for the control of incidents. It allows you to provide them to all potential Incident Commanders (Bronze Commanders) giving them a tool to allow them to better control documents and brief an incident.

Compact for easy storage, folds in seconds keeping your operation organised. The Niton Tactical BATTLEBOARD has removable 2mm Perspex front & back with Clipboard clips. 1 Envelope Front Pocket (A3) for Large Scale Maps. 4 Small (A5), 2 Medium (A4), 1 Large Tab close pockets (A3). 1 mesh pouch, pen holders & removable key hanger. Shoulder strap and hanging straps. Size: 38cm. x 50cm. when folded. When open the board measures 76cm. x 107.5cm. Made from 1000 denier nylon and other high quality materials. Contents not included.

Available in Green, Black, Red, Royal Blue, Graphite & Marine Blue

Code HA-BB

YOUR MOBILE OFFICE SOLUTION

NITEREDI

• No matter what profession you are in, the Nite Redi will undoubtedly make your life easier when it comes to paperwork.

The Storage: The large storage compartment with a watertight seal can be locked to keep all your papers together, keeping them safe, but also hidden from prying eyes! It holds approximately 200 sheets of A4 paper (1" thickness), and there is a separate area for the light and your writing instruments.

Made from ultra smooth (and extremely durable) polypropylene, it's easy to write on, and the low profile but heavy duty spring clip will keep your papers firmly in place while you write.

The Nite Redi Board can not only carry documents, but other smaller items such as pens, mini flashlights etc.

Easy To Clean: Because the Lightbridge can be removed, the Nite Redi can easily be cleaned and disinfected.

The Light: 4 ultra bright LED's, powered by 4 x AA batteries. The on/off switch is easy to activate, even with gloves on. The Lightbridge is perfect if you are in a badly lit environment, or you don't want to be obtrusive while taking notes at night, for example on a hospital ward. If you don't need the light, it can easily be removed and kept in its own section of the storage compartment. The Lightbridge can be used as an emergency flashlight when detached from the board.

Code ATB007

STOP FIRE

NEW

- The Stop Fire Aerosol Fire Extinguisher is a must for every area around a business, home or motor vehicle.
- Simple to use and re-usable it will save you money and the hassle of discharging a conventional fire extinguisher for a small fire. The Stop Fire product requires no expensive maintenance or annual testing.
- Practical and very effective 400ml aerosol 90 seconds effective spray time
- Can be activated and de-activated without emptying completely
- Ideal where welding or metal grinding may cause sparks
- A must have at home and in the car
- Ideal for everywhere with a naked flame
- Causes no harm to furniture or equipment
- Can be sprayed directly onto humans and animals

Code SF001

PARACORD SURVIVAL BRACELET

- Show you belong by wearing our special survival bracelets on or off duty. These bracelets are comfortable to wear and have a neat two tone effect.
- Paracord is really strong and was originally used in the suspension lines of US parachutes in WWII. The cord used in paracord bracelets has a minimum breaking strength of 250kg. It is waterproof, rot proof and can be easily unravelled to assist in emergency situations. The cord can be used for anything requiring great strength and durability. The core contains 7 removable inner strands that can be used for fishing line, bow string, sewing thread, tripwire, nets, traps and other emergency or survival situations.
- Each bracelet holds roughly 8 feet of 550 paracord.
- Medium = 7.5inches * Large = 8.5inches * XL = 9.5inches

Code AA524

SPECIALIST TOOLS

TYRE DESTROYER

Specification & Construction:

Length: 225mm long (with nose cap fitted)
Diameter: 55mm
Weight: 500 g

Construction Material:

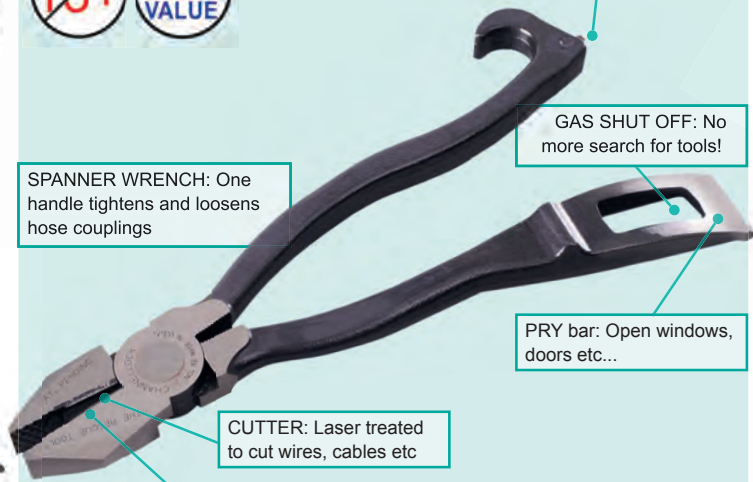

Protective nose cone: Delrin ultra strong plastic
Main Body: Aircraft grade aluminium machined to +/- 1/1000"
Spike: Cast Magnesium/Aluminium alloy
Warranty: 12 months
Finish: Anodised Black

- Primarily designed to provide an effective and efficient alternative to Hatton rounds in pre planned operations.
 - The unit is designed to penetrate the sidewall of a tyre and the operator can either twist the handle clockwise to allow the spike to be left in the tyre or twist left to increase the hole allowing the resultant damage to look similar to pot hole damage.
- The unit is vented allowing controlled deflation while the spike is still attached. Reverse end has a convenient glass breaker. Whilst being extremely effective the unit also allows for firearms and other units to formulate policy, training and operational guidelines for dealing with disabling vehicles without having to use firearms which remove the element of surprise on pre-planned operations.

Code TD001

THE 6 IN 1 RESCUE TOOL

26 ounces of window punching, valve twisting, wire cutting, life-saving power in one hand.

WINDOW PUNCH: Steel punch will shatter safety glass

GAS SHUT OFF: No more search for tools!

PRY bar: Open windows, doors etc...

CUTTER: Laser treated to cut wires, cables etc

PLIERS: Crosshatched teeth for maximum grip!

SPECIFICATIONS:

	Inch	MM
Length:	10.46	265.68
Jaw Length:	1.49	37.85
Joint Thickness:	0.56	14.22
Joint Width :	1.11	28.19
Cutting Length:	0.78	19.81
Weight:	26 oz	

- It's Pliers: Aggressive cross hatched plier teeth twist and pull anything that gets in your way.
 - It's a Gas Shut-Off: With a slot for shutting off standard gas safety valves.
 - It's a Pry Bar: Quickly pries open windows & doors.
 - It's a Cutter: Laser heat-treated cutting edges cut wires, cables and couplings with ease.
 - It's a Window Punch: The hardened tool steel punch shatters safety glass.
- The Rescue Tool was custom designed for Firefighters, Emergency Response Professionals, Police Officers and First Responders of all kinds. It's made in the USA of drop-forged steel so it's built to take a beating. The course textured contoured handles provide secure, non-slip grip, even with heavy gloves.

When fast extraction is the only option.
Bust A Cap can save your life and the lives of others.

BUST A CAP®

- One-of-a-kind device that attaches to your existing flashlight or baton to give you a rapid entry tool and tactical advantage to break glass.
 - Made of steel, can be applied in less than a minute, requires no training and will break glass with one tap.
- Bust a Cap® has no moving parts and can be deployed with either your strong or weak hand. There is no way you can break a window with a flashlight or baton without causing damage to your expensive equipment or injuring someone from flying glass. Attaching Bust A Cap® to your flashlight will insure that it will break glass with just one tap and not damage your equipment.

ACTUAL SIZE

- Concealable Backup Handcuff Key
- Undetectable by metal detectors
- Small, flexible and light - can be hidden anywhere on clothing, watches, hats, shoes...
- Strong enough to be used as a duty key
- Can be deployed and used silently to escape notice

Non-metallic key is the size and shape of a 2 pence piece.

Specifically designed for the US Special Forces and elite federal law enforcement units.

Total diameter: 2.5cm

Code UHCK-B

FATIVAN - THE WORLDS FIRST FOLD UP DOOR CHOCK

ACTUAL SIZE

LET US TAKE THE STRAIN AND HOLD THAT DOOR OPEN FOR YOU

- Chock any door with a hinge
- Compact (10 x 5 x 2.5cm)
- Lightweight only 5oz
- Folds up when not in use
- Will not damage door

Introducing FAT IVAN, the evolution of the door chock or wedge. FAT IVAN was created out of necessity by a US Fire-fighter and brings you a product that can be used by anyone who needs to safely and reliably fix doors open. Are you tired of carrying wedges that rarely work or having bulky pieces of wood or metal hanging out of your pockets? You are done having doors close behind you leaving you cut off from your backup. You need a door chock that will work on any door hinge and also fold up and disappear in your pocket when not in use. FAT IVAN does it all.

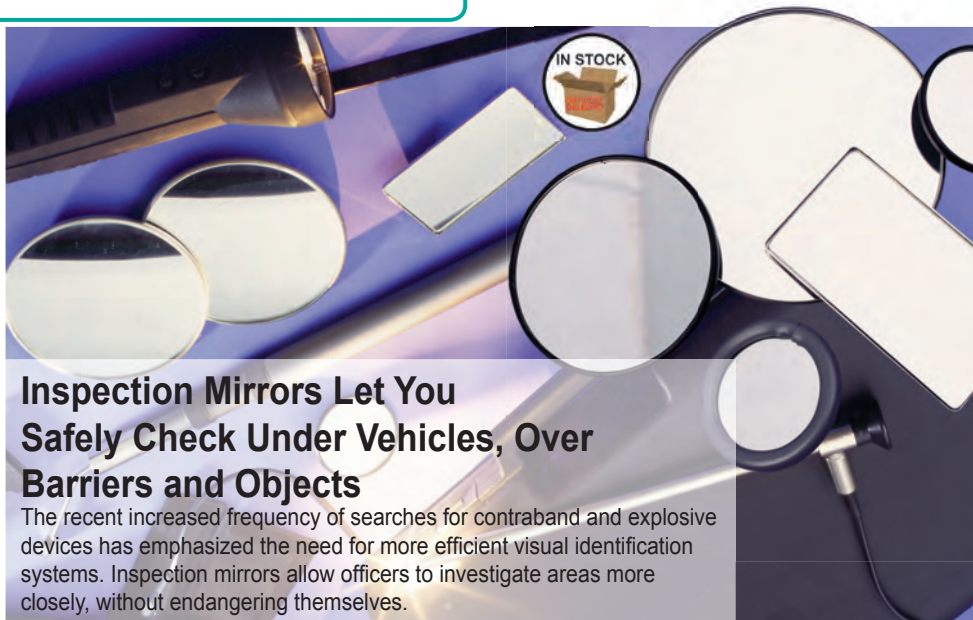

One firearms officer said
"It's amazing - So simple & effective!
Securing doors is now simple - I won't be without one - It's NOW part of my standard kit!

- Available in Red, Yellow & Black (Other colours to special order)

Code FATIVAN

Inspection Mirrors Let You Safely Check Under Vehicles, Over Barriers and Objects

The recent increased frequency of searches for contraband and explosive devices has emphasized the need for more efficient visual identification systems. Inspection mirrors allow officers to investigate areas more closely, without endangering themselves.

5 STAR REVIEW: "This vest is very good for a combination system. It has a comfortable rear section and not just over the shoulder like most covert rigs so it has maximum comfort without being restricting. I would recommend this vest to both police and security personnel as you can attach any pouches you wish."

Kit Contains:
• Mobile Phone Pouch • Rigid Cuff Pouch • Medium Utility Belt Pouch • CS Holder
Supplied in our XXL Nylon Belt Pouch
Click on Dock attachments. 1000D Nylon. Colour: Black.
Fully compatible with the Skeleton Rig (TAC78) and the Skeleton Vest (TAC000).

NITON TACTICAL CLICK ON DOCK JACKET

NEW

- You can't get a more multi-functioning piece of clothing than the new Niton Tactical Custom Click On Dock Jacket. This jacket will do you for summer or winter, on or off duty, covert or overt operations...You really can wear it for any occasion.

- Add the TAC84 pouch pack or other Click on Dock pouches to make the jacket carry, covertly exactly what you want.

The basic design of the jacket comes from our hugely popular Mission 5 jacket. This means you can wear the jacket in 5 different configurations to suit any weather.

The amount of additional operational features of this jacket is outstanding! You can keep them hidden if you are off duty or working undercover, or easy to see if you're working overtly.

The Fleece: Two zippered front pockets. One inside pocket. Two hidden chest pocket with Velcro closures, large enough for notebooks or other documentation. Removable sleeves

The Outer Shell : Two zippered front pockets. Two inside pockets. Hidden back and sleeve pockets. Two removable panels on the chest to reveal 6 Click On Docks on each side. Concealable hood. ID panels front and rear that can be hidden

The Niton design team have made this jacket THE tactical jacket. Now it doesn't matter what today's duties involve or what the weather is doing, this one jacket covers all the possibilities. Not only is it extremely functional it is stylish and comfortable to wear. The fleece can easily be zipped in and out of the liner so you can adjust the jacket to suit the temperature. The ID panels can be hidden away or quickly revealed, as can the panels of Click On Docks. The pockets are all discreet and have either zipped or Velcro closures for security. This jacket is the way forward for operational clothing. Colour Black. Sizes small - 2 XLarge

GLOBAL TORCH MOUNT

The Global Mount is a helmet light attachment system that is designed to accommodate virtually any helmet, and can be used with three different size lights; 4AA, 2AA, and Tactical. The Global Mount is designed to allow the user to remove the light, use it as a handheld light, and return it to the helmet, where the patent pending design will automatically return it to the originally set position without having to remove the helmet in dark, or hazardous environments. The Global Mount is manufactured of a proprietary thermo plastic that has been tested to above 500 F for 8 minutes with no loss in functionality.
