LITTLE BROTHER HEAD CAM BODY WORN DIGITAL EVIDENCE GATHERING.

Lightweight, tamperproof and evidence admissible, this system ensures that whatever is seen or heard is captured.

The "Little Brother" Body Worn Video System combines advanced Digital Video / Audio capture with instant visual display and playback and is recorded onto a high capacity, solid state memory. Using bespoke security software specifically customised for law enforcement, the system meets and exceeds all mandatory and desirable UK Home Office head cam guidelines. Superior camera technology gives excellent day and night video quality. The Little Brother Body Worn Video Systems are currently being used in more than 60 Police Forces Worldwide..

PROVEN TO SAVE REPUTATIONS AS WELL AS TIME & MONEY!

- Complaints against the police reduced by 14.3%
- NO complaints against officers wearing head cameras
- Reduction of 22.4% in officer time spent on paperwork and file preparation

SYSTEM HIGHLIGHTS

- High Resolution Head Camera
- High Definition Touch Screen DVR
- Pre-Event Recording
- Still image capture
- Solid State memory
- Noise cancelling audio
- IP 66 Controller
- Law enforcement secure and tamperproof password protected files saved to solid state memory

CAMERA: The system is supplied with a Head mounted "bullet" camera -1/3" Sony Super HAD CCD offering 550 TVL. 0.2 Lux / 30 IRE @F2.0.

DVR: A 2.36 Inch Colour TFT LCD Touch Screen with adjustable frame rate, resolution and image quality. Only weighs 160g (inc battery). 6 x resolution settings: 1280 x 960, 1280 x 720, 1024 x 768, 720 x 576, 640 x 480 and 352 x 288.

BATTERY: 6Hr 40Min Battery which can be charged separately from the DVR (if used with the optional Twin Battery Charger).

FIRMWARE: Uniquely designed software offering a superior level of password protection. Cannot use the device or download images without entering passwords. All DVR "Settings" are password controlled which ensures that the user cannot enter the "Settings menu" to change options.

DESIGN: Rugged unit design with an IP67 Camera.

**WHAT'S IN THE KIT**

The system is supplied complete with the following:

- Touch screen DVR (including Security Software)
- High Resolution digital mega pixel head camera
- Ergonomically designed, rugged headband
- Pouch for DVR
- Internal solid state memory
- USB 2.0 & Video / AV cable
- Mains Power cable
- Shoulder mount & Cap/Helmet mount

**ADVANCED TACTICAL CAMERA**

A.T.C. The crucial record of events in any use of force scenario can prove disastrous if you aren't armed with the unbiased eye of a video camera.

- Waterproof up to 3 meters and shock resistant for extreme conditions.
 - Mount included for RIS/RAS interface system or weaver style mount.
 - 640X480 VGA resolution at 30 frames per second.
 - Both USB and RCA cables are included for easy playback on a PC or TV (NTSC).
 - On board memory is 32mb (good for about 5 minutes).
 - SD card expansion works with up to a 2 gig card (approximately 1 hour of audio and video at best quality) SD card is not included.
- Operates on two AA batteries, approximately 2 hours of use on a set of batteries (not included). Dimensions 4.25L x 1.75D x 2.25H (inches). Weight is 7 oz total for camera with mount, batteries and SD card installed. Camera weight is 3.2oz, with two AA batteries and card installed 5.5oz. Ring Mounts weight is 1.7oz.
- The crucial record of events in any use of force scenario can prove disastrous if you aren't armed with the unbiased eye of a video camera. Now video capability is portable! Ready to attach to your weapon or helmet.
- Simple and easy to use. Using a 2Gb SD media card, the ATC can record an hour of VHS quality video (640 x 480 resolution) at 30 frames per second plus audio. Included cables allow you to download video straight to your computer or simply connect to a television and use the camera for playback.
- Engineered specifically for military and law customers to withstand the harsh recoil of a weapon. Totally self-contained, the device is also waterproof up to 10 feet and offers protection against sand and other debris from internal O-rings.
- The Advanced Tactical Camera is a perfect and inexpensive tool for training and accountability in real mission deployments.

BUG OUT CAR BAG

Large Main compartment with 2 internal pockets for stun / smoke grenades

3 Large pockets - suited for 5.56 mags

3 Side pockets - for side arm ammo, knife, torch etc

Back panel has a concealed clear pocket for maps

- Front Pockets: 3 large pockets ideally suited for 5.56 magazines.
- Side Pockets: 3 side pockets suitable for side arms ammo, flashlight, knife and radio / phone.
- Large main compartment: Velcro closure conceals two internal pockets ideal for water bottles or stun / smoke grenades.
- Back panel: Concealable clear pocket, ideal for maps - providing concealed instant access.

The Niton car bag is small enough to remain practical when exiting a vehicle but large enough to carry all of your essentials.

Designed to meet the needs of Special Forces and officers who need to move in a hurry. Designed to be worn like a messenger bag, the Niton Car Bag has an adjustable shoulder strap and quick release belly band for minimum movement when moving at speed or exiting a vehicle. Worn close to the body allows for easy but secure access to all pockets and pouches.

Code NHG045

TACTICAL ASSAULT BACKPACK

NEW

- Packed with all the features you would expect to find on a high quality back pack, such as padded shoulder straps and backing, but also has everything you could need for operational duty.

Discreet bellowed pocket with zip closure (25cmW x 32cmH x 8cmD), will take a Tablet or e-reader. The front compartment contains pen and document dividers, a phone/radio pouch and spring clip attachment for keys (33cmW x 32cmH x 7cmD). The main compartment includes a zippered mesh pocket and drawstring pocket (35cmW x 49cmH x 18cmD).

The back of the bag is specifically designed to carry a hydration bladder. Molle attachments cover the Assault bag so you can attach additional pouches if required. Velcro strips allow to attach your own ID badges or company logos. Adjustable padded shoulder and waist straps are padded. Each strap also has a D-Ring and there is an additional grab handle on the top of the bag.

Code NT40022

MP5 OR G36 STORAGE & CARRY BAG

In service with Police Firearms teams for the past 15 Years!

Large outside pocket with ID pouch

- Our MP5 & G36 Carry Bag is in use with a number of major Police Firearms Units both home and abroad. This clever design gives a discreet method of carriage because of its rectangular shape. Made of 1000 denier texturised nylon and packed with closed cell foam to protect the weapon and dissipate shock. The interior of the case is lined with 1000 denier nylon and has an interior pocket to take the fore end or fore-end with or without flashlight attachment. Heavy duty zip with dual sliders on two sides so your weapon can be withdrawn from one end for covert deployment. Outside pocket for magazines/ equipment. The case is designed to carry the firearm magazine in barrel down position. Reinforced base to negate wear at stress points. Two grab handles and detachable and fully adjustable shoulder strap.

• Now the clever part! One side of the bag has a pocket which can accommodate a ballistic shield plate. With the forearm loop the bag can be deployed as a ballistic shield.

HIATT Defining quality handcuffs for more than 225 years!

The leading name in handcuffs and restraints, Hiatt is now powered by the Safariland group.

With a wide variety of restraints including chain, hinged, speciality hinged, oversized and lightweight handcuffs, you can count on the same high quality construction and features from a name you trust. HIATT® Restraints Products Are Your Best Choice.

HATCH® The sure leader in police gloves with a reputation based on quality and user-driven innovations.

Hatch gloves and riot gear are designed with the law enforcement professional in mind. Hatch provides quality gloves and other protective gear for uniformed duty, tactical, corrections, military, industrial safety/medical rehabilitation, and more. Hatch brands include Friskmaster™ cut-resistant gloves, Operator™ Tactical Gloves, Centurion™ and ExoTech® disturbance control gear. They provide a 'Legacy of Quality' and are now powered by the Safariland Group.

For decades these four legendary brands have made up the most honoured names in firearms accessories.

Products range from cleaning kits, maintenance equipment to chemicals, polymer shotgun stocks and scope mounts. KLEENBORE, SPEEDFEED, BREAKFREE and B-SQUARE have been proud products of military, law enforcement and sports shooting circle like no other brand. Combined innovation, quality and customer care - one stop shopping for every type of firearm.

SAFARILAND™ offers an extensive line of gear to help officers protect and serve.

Safariland has had a rich heritage in the law enforcement and sporting markets for almost 50 years, comprising of a group of the most recognized and well-respected brands known for their innovation and quality the world over. We are committed to focusing on the customer first in all we do.

Our Mission, Together, We Save Lives.

MONADNOCK® is synonymous with quality as the leading supplier of batons, restraints and training aids.

The preferred choice of law enforcement professionals the world over for more than 50 years. Now under the Safariland umbrella, they bring heritage and expertise to focus on our primary objective, providing the highest quality and most innovative products. More law enforcement officers choose to carry American-made Monadnock® batons over other competing brands.

There is a reason. We build it better.

PROTECH® brings tactical armor to a new level with years of advanced research and experienced personnel. Our designers and engineers are committed to producing modern technological solutions that address the special-threat requirements of military, federal and law-enforcement agencies across the world. PROTECH is part of the Safariland family of law enforcement products, which includes tactical and concealable body armor, less lethal products, duty gear, vehicle-maritime and structural hard armor systems, personal protective gear, firearms accessories and investigation and examination equipment.

Bianchi holsters, belts and accessories have been used in police, military and sporting applications the world over. Now

powered by the Safariland Group. Bianchi International's product line continues to evolve to keep pace with today's customer demands. They are continuously researching new materials, developing new designs and entire new product lines to meet these changing needs.

82 CARRYLOCK®

- Dual belt slots pull gun close to body for concealability
- FingerLok™ for speed & security
- 16° forward carry angle
- Open muzzle
- Fits up to 1.75" (45mm) belt widths

The CarryLok offers the speed of an open top concealment holster with the security of Bianchi's Auto Retention™ concept. The FingerLok™ internal retention mechanism secures the pistol by the trigger guard as it is inserted into the holster. To draw, the middle finger sweeps the release lever allowing the pistol to be drawn in an upward movement.

4420 TRANZIT® HOLSTER

- Unique nylon holster that attaches to common body armour vests
- Elastic webbing secures weapon close to body
- Perfect for deep concealment or as a back-up weapon

This nylon holster attaches to common body armour vests with hook & loop and is designed to use the holster as a "side strap" for common body armour. Elastic webbing secures weapon close to body. This holster is perfect for deep concealment when a vest is warranted or with a backup weapon. It also incorporates an additional pocket for optional ballistic side plate. Fits most compact pistols and revolvers

Code BIA24786

4620 TUXEDO® SHOULDER HOLSTER

- Closed-cell foam centre cushion for protection
 - Ambidextrous & one size (up to 48" chest)
 - Includes magazine pouch & 2 Tie Down Accessory straps
- The horizontal shoulder holster system is lightweight and comfortable enough to wear all day. It offers lightning-fast access; it's ambidextrous and

swiftly adjustable to fit most torsos. The holster is lined with a soft suede-like material for protection of the firearm. Comes complete with holster, X-harness, two tie-down straps and a double mag pouch or speedloader panel. Bianchi's trilaminate construction provides padded protection of the firearm.

SAFARILAND™

offers an extensive line of gear to help officers protect and serve.

Safariland has had a rich heritage in the law enforcement and sporting markets for almost 50 years, comprising of a group of the most recognized and well-respected brands known for their innovation and quality the world over. We are committed to focusing on the customer first in all we do.

Our Mission, Together, We Save Lives.

SLS - Self Locking System

The SLS rotating hood has been tested and proven for many years on the 6280 and 6004 series of holsters.

Simply push down and rotate forward as you obtain your shooting grip. To close, pull back on the hood, and the SLS self locks.

No snaps or straps to manipulate.

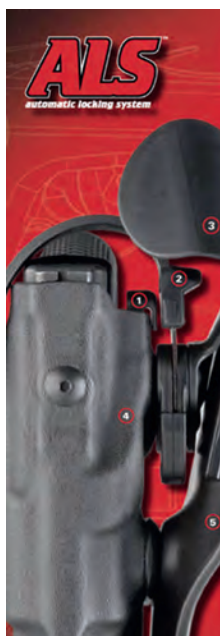

The Hood Guard helps protect the SLS from impact and inadvertent release, especially in an attempted takeaway. Included with all duty and tactical versions. Constructed of SafariLaminate, a thermal-molded holster design to help protect the handgun and accessories for years of use.

6280 SLS® LEVEL II DUTY HOLSTER MID RIDE

- SLS (Self Locking System)
- Mid-Ride position allows for excellent weapon protection and quick easy draw
- Top draw and straight drop cant

Model 6280 holster is the base model of SLS™ series of holsters. It includes a unique rotating hood design. Universal Belt Loop that mounts on a 2" or 2.25" Duty Belt. With no snap, allowing for a smoother single-motion draw and greater protection against attempted weapon takeaways. The hood can only be released by being simultaneously pushed down and rotated forward and actually becomes more secure when upward force is applied. The 6280 holster features a tensioning device, which, when firmly adjusted becomes a Level III Retention™ holster. Available Plain Black, Basket Weave, Hi-Gloss, or Nylon Look finishes

Code SF6280

ALS - Automatic Locking System

The ALS system is the latest evolution in retention holsters and builds upon the successful Self Locking System (SLS).

With several patents to its credit, the key to this system is an internal locking device that secures the weapon in all directions simply upon reholstering.

Level III Retention is achieved when used in conjunction with the SLS, which can be elevated to Level IV Retention with the addition of the Sentry.

Also available in Level I Retention and Level II Retention versions.

Additionally, holsters with this advanced ergonomic design are completely operable with the thumb, making training easy, and the straight-up draw makes them very instinctive to use, yet difficult for an assailant's attempted takeaway.

And finally, once the retention devices are released, the weapon can be drawn straight out of the holster with no twisting or other motion required. The ALS series holsters cover a wide array of market needs, from retention duty holsters to models in our popular tactical offerings to a belt loop, belt clip and paddle holster for the concealment markets, both with and without the SLS.

6365 ALS® LEVEL III DUTY HOLSTER W/ DROP UBL

- Level III Retention™ OR Level IV Retention™ with optional Sentry installed
- ALS® Automatic Locking System secures weapon once holstered

Hood Guard is standard on 6365 holsters. Slim, compact design allows weapon to ride close to body. Simple straight up draw once all releases are de-activated. Includes Hood Guard, optional Sentry available. 1.5" Belt Drop version

Available in Plain Black, Basket Weave, Hi-Gloss finish or STX Tactical®

Code SF6365

The full range of Safariland holsters and accessories are available to order. Please email SALES@NITON999.CO.UK with your specific requirements

- Includes SLS hood assembly and Hood Guard

Hood Guard is standard on 6305 holsters. Mounted to the same leg shroud assembly as the popular 6005 series. Simple straight up draw once all releases are de-activated. Optional Sentry available. Thermal-molded SafariLaminate™ construction protects handgun and sights. Standard double leg strap and leg shroud with mounting holes for optional accessories. Adjustable vertical leg strap with quick release detachable leg harness. Available in Black STX Tactical®, Foliage Green, FDE Brown, and OD Green

Code SF6305

6342 ALS TASER (EDW) HOLSTER WITH CLIP

- Automatic Locking System (ALS®), securely locks the Electronic Discharge Weapon (EDW) into place without any straps or snaps to manipulate
- Holster design uniquely protects the top portion of the Taser® X26 from abrasion and impact and protects the LED display. This holster design will pass a Level I Retention™ Pull Test. Ambidextrous. Closed bottom with a drain hole to protect the cartridge. The safety on the Taser® is automatically activated once it is reholstered. Clip-on style belt loop with the ability to fit 1.5" (38mm), 1.75" (45mm), 2" (50mm), and 2.25" (58mm) widths. Available in STX Tactical®, STX Plain, STX Basket, STX Hi-Gloss, Foliage Green, or FDE Brown

Code SF6342

Quick Attachment System

Safariland's Quick Attachment Systems (QAS) allow you to quickly attach, transfer and reattach equipment on your person or other location as the task demands.

ELS - EQUIPMENT LOCKING SYSTEM

For quick transfer of accessories to any two-hole mounting platform or MOLLE loop gear.

Provides a mounting platform for any Safariland tactical or competition accessory.

Very small receiver footprint.

Quickly transfer your gun from your body to other mounting points.

Mount your accessories nearly anywhere: Belt, thigh rig, in the house, in a vehicle, or on a MOLLE vest.

ELS 34 EQUIPMENT FORK

• The ELS 34 mounts directly to the back of Tactical Accessory models and locks into the ELS 35 Receiver Plate. Quick detachment and attachment of various accessories to wherever an ELS 35 Plate is located. Each ELS 34 includes (2) Locking Forks and hardware for both.

Code SF6004A

ELS 35 RECEIVER PLATE

• The ELS 35 is the mounting platform for the ELS 34 Locking Fork. It can be placed in various locations, including Belt Clips, Tactical Rigs, or directly on MOLLE loops with the use of an MLS 16 Locking Fork. Each ELS 35 includes (2) Receiver Plates and hardware for both.

Code SF6004A

ELS ON A LEG SHROUD

- (2) ELS 35's on a Leg Shroud
- ELS 34 w/ Rifle mag and ELS 34 w/ Pistol Mag Pouch

MLS 15 HOLSTER LOCKING FORK

• Mounts directly to the back of the holster. Can also be strung through MOLLE loops directly or lock into the MLS 17 or MLS 18.

Code SF6004A

MLS 16 ACCESSORY FORK

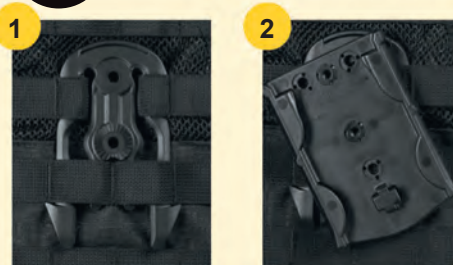

• Mounts directly to the back of the accessory. Can also be strung through MOLLE loops directly or lock into the MLS 17 or MLS 18.

Code SF6004A

MLS ON A MOLLE VEST

MLS ON A VEST

- Holster w/ MLS 15 threaded directly through Molle Loops

- MLS 17 on Leg Shroud
- MLS 17 w/ MLS 15 on Holster

LOCKING SYSTEM

Quick, easy and secure attachment of holsters or accessories to any MOLLE loop-equipment apparel.

Benefits:

Add MOLLE mounting support to the QLS and ELS systems. Quickly attach or detach holster or accessories nearly anywhere: MOLLE loops, belts, thigh rig, in the home or even in a vehicle. Easily remove your weapon without removing it from the holster. Works with nearly all Safariland holsters and duty gear. Designed to break away at 140lbs per military specifications.

MLS 17 RECEIVER PLATE

- Mounting platform for the MLS 15 or MLS 16. Can be attached to any Safariland 3 hole backpiece (belt slide, paddle, etc), onto the front of an MLS 16 which is threaded through MOLLE loops, or onto practically any flat surface with the appropriate screws (sold separately).

Code SF6004A

MLS 18 RECEIVER PLATE GUARD

- Mounting platform with bottom guard for the MLS 15 or MLS 16. As MLS 17 but with bottom guard helps prevent the accidental release of locking fork.

Code SF6004A

1. MLS 16 on Vest
2. MLS 17 w/ MLS 16 on Vest
3. MLS 17 w/ MLS 16 on Vest and MLS 15 on Holster

MLS

MLS ON A THIGH RIG

QLS

QLS - QUICK LOCKING SYSTEM

Our most versatile holster mounting platform for law enforcement and private citizens.

Benefits:

Mount your holster nearly anywhere: Belt, thigh rig, in the home or even in a vehicle. Easily remove your weapon without removing it from the holster. Quickly transfer your gun from your body to other mounting points. Mount to MOLLE vest with the MLS 16 Accessory Locking Fork. Works with nearly all Safariland holsters and duty gear. Passes Level I Retention™ pull test.

QLS 19 HOLSTER LOCKING FORK

- Mounts directly to the back of the holster or accessory. Can also be used on MOLLE loops if attached to an MLS 16 which is threaded through MOLLE loops. A Level I Retention is maintained on Duty Holsters.

Code SF6004A

QLS 22 RECEIVER PLATE

- Mounting platform for the QLS 19. Attach to any Safariland 3 hole backpiece (belt slide, paddle, etc), onto the front of an MLS 16, or practically any flat surface with the appropriate screws (sold separately). Maintains a Level I Retention on Duty Holsters.

Code SF6004A

Same as the QLS 22 Receiver Plate but includes an extra locking feature.

Code SF6004A

QLS

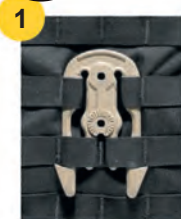

QLS ON A DUTY BELT

1. QLS 22 w/ UBL on Belt
2. QLS 19 on Holster Back
3. QLS 22 w/ UBL w/ QLS 19 on holster

QLS

QLS ON A MOLLE VEST

1. MLS 16 on Vest
2. QLS 22 w/ MLS 16 on Vest
3. QLS 22 on MLS 16 w/ QLS 19 on holster

QLS

QLS ON A THIGH RIG

1. Attach QLS 22 to Thigh Rig
2. Attach QLS 22 to back of Holster
3. QLS 22 on shroud w/ QLS 19 on holster

The full range of KLEENBORE & BREAKFREE is available to order. Please email SALES@NITON999.CO.UK with your specific requirements

BREAKFREE - CLEANS, LUBRICATES, PROTECTS

Break-Free's flagship product, CLP is a unique formulation of synthetic oils and individual proprietary ingredients which synergize in combination to do three important tasks simultaneously: Effectively Clean, Lubricate and Protect metal. Break-Free CLP is now recognized around the world as the standard by which maximum metal performance and protection is ensured.

Penetrates and spreads along metal surfaces into every pit and crevice to undercut contamination and lift residue away where it can be removed. Long-lasting lubricating film dramatically reduces adhesion of sand, grit or other abrasives which cause wear and failure. Corrosion inhibitors prevent the formation of rust while Break-Free's unique boundary film protects metal surfaces from moisture and other contaminants. Specially formulated synthetic oils won't lose viscosity, dry out or stiffen up in extreme environments - such as cold, heat, dust, dirt, humidity and even salt air - keeping equipment in ready condition for months at a time.

CLEANING KIT

- The PockKit handgun cleaning set allows you to pack a two-section rod in a patented storage handle. Also holds a phosphor bronze brush, mop and jag for easy, convenient storing and carrying. The first rod section with muzzle guard, cleans 2" to 5" barrels including most semi-automatics. Add a second section for barrels up to 8 3/8". PockKit cleaning sets are offered in a variety of popular handgun calibres and the rod sections accept all Klean-Bore handgun accessories.

Code **KBSAFPOC222**

.38 / .357/9mm

CLEANING KIT

- Tailored specifically to meet the cleaning needs of firearms that are used heavily in the field.

Include a 1/4" diameter precision ground stainless steel rod. The rods feature a muzzle guard to prevent damage to the bore and a rotating handle that provides a precise clean, by allowing the rod to tightly follow rifling.

Each kit features a 2 oz. bottle of powerful No. 10 Copper Cutter to counter the effects of jacketed rounds. Also included is Break-Free's Lubricant/Protectant, a synthetic oil specifically formulated for modern firearms. The kits are finished with 100% cotton patches, a double-ended nylon brush, a silicone gun cloth and calibre specific brushes and mops.

B SQUARE**BREAK FREE****SPEEDFEED****KleanBore**

Developed in Israel for the world's military and special security services, the combat-proven Fobus Tactical Elite Holster series is a revolutionary step forward in holster design and technology. State of the art design, injection moulding and space age high-density polymers are combined to create a holster which cannot be duplicated in leather or any other material. Outstanding features that Fobus incorporates in the holsters are high riding, and a low profile with unbelievable retention, comfort and lightweight construction.

Comfort is vital to those who carry a sidearm. Fobus designers have delivered holsters that weigh a mere 2 ounces, yet are more rugged and reliable than all others, and are maintenance free. Fobus holsters have now set the standard with elite law enforcement personnel and police departments at federal, state and local levels worldwide. Professional firearms users enjoy having the finest in holster technology and knowing that their sidearm remains safe at their side, ready for instant use.

Unique Fobus Roto-Holster rotates 360 degrees and adjusts easily for cross-draw, bodyguard/driver, small-of-the-back, and strong-side carries. Our patented locking adjustment allows the firearm either a forward or rearward cant, with our Proven Retention System.

The Roto holster is lightweight, with a flexible two-piece design for maximum strength and all-day comfort. Your choice of an easily interchangeable paddle, or a belt loop attachment is included. Extra attachments are sold separately.

The Roto holster system is available for most current holster models.

FOBUS ROTO HOLSTER

- Interchangeable to accept other system & rigs in the Fobus family
- Full 360 degree lockable adjustment (key supplied)

Shooters can now take care of all of their carry needs with just one holster. Transforms from a paddle holster for concealed carry, to belt holster for uniform duty or as a drop down thigh rig for tactical operations. The Roto-Holster is its unique circular plate moulded into its back. By simply loosening a single allen screw the user can quickly change from a paddle to a belt loop adapter, drop down thigh rig or the universal home & auto mount.

FOBUS TACTICAL SPEED HOLSTER (GLT)

- Accommodates a handgun utilizing accessories that are either rail or trigger guard mounted
- The handgun is held securely in place with perfect retention

This innovative holster was created in answer to many requests to provide a carry system that would accommodate a handgun utilizing accessories that were either rail or trigger guard mounted. The GLT answers this request, and more! In addition to allowing the carry of handguns that have accessories such as lights or lasers mounted under the barrel or on the trigger guard. The handgun is held securely in place by utilization of a muzzle stud and a safety strap that encircles the trigger guard. While assuring positive retention, rapid presentation of the handgun is made easy due to the open withdrawal slot on the rear of the holster and the design of the safety strap.

Also included is a T-handle, a thread connector, and a bore reflector/flag safety.

Calibre/Gauge: .410 - 12/10 Gauge Shotguns
NSN: 1005-01-474-0528

Code OT410

The Otis Technology Breech-to-Muzzle Cleaning System is widely regarded by experts as the most advanced gun cleaning system in the world.

It offers many gun cleaning advancements and refinements developed for the military and competitive marksmen and hunters.

By cleaning Breech-to-Muzzle, dirt and fouling is pulled out the muzzle, not pushed back into the action gumming the trigger or causing malfunctions.

Try the Otis System - it will last a lifetime, and you'll spend more time shooting and less time cleaning!

SNIPER RIFLE CLEANING KIT

• Memory-Flex cleaning rods, it is only possible to clean correctly, from Breech-to-Muzzle
Includes brass scraper tool set. These tools are designed to clean the locking lugs, bolt face, carrier key, bolt and slide. Includes Premium optical cleaning pack: Anti-Fog Lens Cleaner, Lens Tissues, cotton swabs, an Otis Lens Cloth, and a Mohair Lens Brush.

Code EAR08

COMTAC TRACKER

OPTIME II EN 352

- Muffles extremely low frequencies to a maximum degree
- Sealing ring are filled with a mixture of liquid & foam, resulting in optimum seal with low contact pressure
- Optime II have been developed for demanding noise-hazard environments. The sealing rings have ventilation channels and are covered with soft, patterned, hygienic foil. Optime II is a suitable choice for environments with substantial industrial noise. Seamless height adjustment. Flexible adaptation to size and shape of head.

Colour: Black

Code EAR05

- Audio input to allow connection to external radio & level dependent stereo function.
- Controlled by AGC for best and most natural sound quality. Level-dependent function can be used independently. Automatic switch off after 2 hours, low battery indicator. Microphone can be added making a complete two way communication headset. SOLD SEPARATELY. Colour: Black EN352-4 & EN 352-1

Code MT15H68FB-100

OPTIME III EN 352

- Maximum high-frequency muffling whilst still being able to understand speech & signals
- Sealing rings are broad, filled with soft foam for best fit and comfort when worn for long periods. Optime III is a super muff, and has been developed for use in extremely noisy environments. The protection is based on new technology with a double casing that minimises resonance in the holder casting. An acoustic connection between the inner volume and the volume between the castings in its turn provides maximum low frequency muffling.

Colour: Black
