

POLICE MAT 50 REFILL SYSTEM

With the cost of training officers becoming more and more of an issue, we know that sometimes you may ask yourself how many times can we afford to practice?

We have a simple, fast, effective and more importantly cost effective way for you to refill your training sprays.

The Police MET50 is easy to use, simply place the can in the disc, press down the red button, and wait 20-30 seconds for the can to be refilled - and ready to train again.

The unit is designed to enable the end user, to refill their own training spray's on site without the need to send the used sprays back to the distributor.

By using the refill station in conjunction with the compressor along with a water source (tap water) each can is refilled instantly. The pressure and distance is comparable with the current sprays but without the need to replace each can as it's used. The cost saving speaks for its self. Forces already using the system have been impressed with the savings to their budgets after investing in the this system.

Each system is simple to use and can be placed in almost any location. Its easy to use, just push the empty can on the filling-plate and depress the red button for 20-30 seconds. The can will be automatically refilled with water and pressure - ready to us again.

There is a choice of four 50ml can designs to match your operational spray option. All have options have been:

- Anatomic designed grip.
- Safe triggering.
- Clearly-defined spray direction flip-top.
- Operation also when wearing gloves.
- Jet stream effective range of 1 to 6 meters.
- No dripping after use

Practice Makes Perfect!
Each practice should never come down to cost!
So practice, refill and practice again with Police Mat 50 refill systems.

Refillable training system for inert aerosol training. Guaranteed to minimise costs and waste by refilling the cans. Requires no real maintenance - keeping costs down. Fast, safe and easy to use.

Are you a Police Force looking at upgrading your equipment with a more cost effective option?

If you are looking at purchasing the Police MAT50, but would like to see it in operation then just give us a ring. We will be happy to arrange for a on site, no-obligation demonstration of the unit. Please call 01293 549858 or email our sales team at sales@niton999.co.uk with your request. We guarantee to respond to your enquiry within 24 hours.

JIGSAW TRAINING MATS

- Interlocking mats for easy to lay floor areas. These sturdy mats offer a permanent or temporary cushioned floor solution for student comfort and added safety. Double sided reusable mats. Easy wipe clean surface. Straight edging supplied. Firm density for professional use.

MONADNOCK PRACTICE SUIT

**Spend more time training...
Takes just 2 minutes to put on!**

- The Monadnock Practice Suit helps you spend more time training instead of putting on one small piece of protective gear after another.
- The suit is easy to put on and take off, like a pair of pants and jacket, and cleans up with soap and water. Plus, it is made to reinforce the targeting illustrated in the Monadnock Baton Chart.

This is the first training gear you can actually wear like a suit of clothing. You can get in and out of this "suit" in 2 minutes or less which means you have found a way to add valuable time to your training exercises. Escalation and de-escalation of force Target selection. Application of physical force.

The Monadnock Practice Suit (MPS) lets you easily combine these important elements in your hands on use of force training. The MPS's 3 colours which are as easy to identify as a traffic signal help to guide your use of force judgment especially during fluid training or in street simulation scenarios. When it comes to use of force training safety and protection your invaluable learning partner is the Monadnock Practice Suit.

No more problems with pads flying off or straps coming undone in practice with the MPS's double strapping system! Cleans up with soap and water (or disinfectant) then air dry! Combines cognitive learning and psychomotor skills.

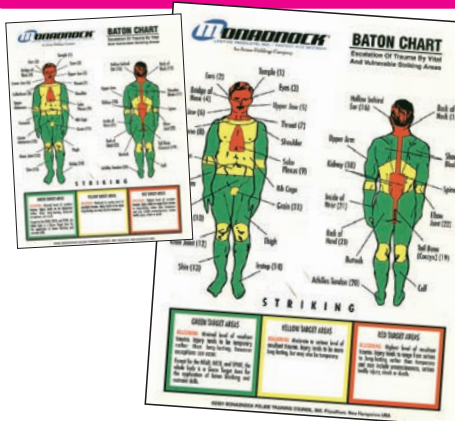

Breathable liner. Lightweight - 26lbs. (For safety use training batons such as Cat. No. MON6101 or MON5103.)

Code MON5120

NITON TRAINING 2001 LTD THE NITON 4 STEP APPROACH

1. REDUCE CONFLICT
2. REDUCE LIABILITY
3. INCREASE SAFETY
4. INCREASE CONFIDENCE

What Will Niton Training Do For YOU?

During the past fifteen years thousands of people have attended Niton Training Courses from diverse backgrounds all over the United Kingdom. We believe that we have significantly empowered our students to deal with conflict. Many have credited us with helping them to avoid injury and even saving their own lives and the lives of others. The prevalence of violence in our society is appalling; daily we see the results of physical violence, threats, harassment and intimidation. The only way to deal with conflict and avoid violence of any type is through knowledge and training.

Our programmes will change you and your staff in many ways giving you more skills and options to increase your personal safety. Confidence and productivity will be increased as will employee retention and morale. The understanding of body language signals and the use of verbalisation skills often reduces anxiety and prevents aggression resulting from confrontation. Understanding how to separate and control aggressors with the use of minimal force will reduce embarrassment, conflict, and injury.

Niton Training will teach you the principles, skills and techniques of recognising, reducing and managing violent and aggressive behaviour and provide humane and compassionate methods of dealing with aggressive people. We provide training programmes which based upon the techniques and guidelines taught to the civil police in the UK and USA, including compliance with the Human Rights Act 1998. We are an approved provider of Personal Safety Skills to a major Government Department and the NHS.

edexcel
advancing learning. changing lives

Our courses are designed for professionals in all areas of law enforcement, security and public and private services. Any training we deliver is lawfully accurate, health and safety compliant and as tutors we are qualified, accredited and recognised for the subjects we instruct and are insured to that effect. This therefore not only ensures competency but also will serve to reduce any organisational liability on you or your organisations behalf. Our courses cover from verbal and non verbal communication skills, through personal defence and safety skills to physical control skills, restraint, handcuffs and batons.

Customised training for your business and your unique problems will result in tailored, focused, and cost-effective training. Our services are designed to provide the Client with the most flexible, cost effective and discreet answer to their problems.

To this end the services we provide include:
The provision of General Training for Law Enforcement and Security.
Specialist Training customised to the Clients needs.
Training provided at the Clients premises.
Confidential Consultancy Services.
Refresher and Re-certification training.
Personal Safety training for corporate Clients.

BENEFITS OF THE BASIC HANDCUFFING COURSE

- Reduced Likelihood of Injury to Staff and Subjects
- Reduced Exposure to Criminal and Civil Liability
- Increased Performance, Efficiency and Speed When Applying Handcuffs
- Increased Confidence and Staff Morale
- Increased Safety

BASIC HANDCUFFING COURSE

This sixteen hour course is the most complete and innovative handcuffing training taught in the UK. The techniques presented are practical and effective and broadly follow the skills taught to the Police in the UK. Therefore, providing you follow these approved techniques and use them in line with the Use of Force Continuum, your actions will be court defensible.

We do not authorise or train independent trainers, therefore your trainers will be directly employed by Niton Training. On average, our trainers have twenty years plus of Law Enforcement experience to draw upon when they are instructing you. Two trainers are always in attendance on our courses.

This course seeks to develop the candidate's skill level to achieve confidence and competence in the basic techniques. The development of psychomotor skills and the methods used to handcuff a person from various control holds. Certification on the successful completion of a handcuff course is valid for a period of one year. Refresher training and certification is required annually in order to maintain Court credibility.
Course Length: 2 days

ROBERT HINDI S.A.F.E.T.Y. SYSTEM DVD

Robert Hindi is the inventor of the Hindi Baton Cap. He is also a Monadnock Expandable Baton (MEB) instructor who has trained and demonstrated the Hindi Baton Cap's numerous tactical advantages and safety features in conjunction with the expandable straight baton.

He has proven that this baton combination is the most advanced and most effective baton system to over 300,000 officers worldwide through the Calibre Press, internationally known, "Street Survival" seminars.

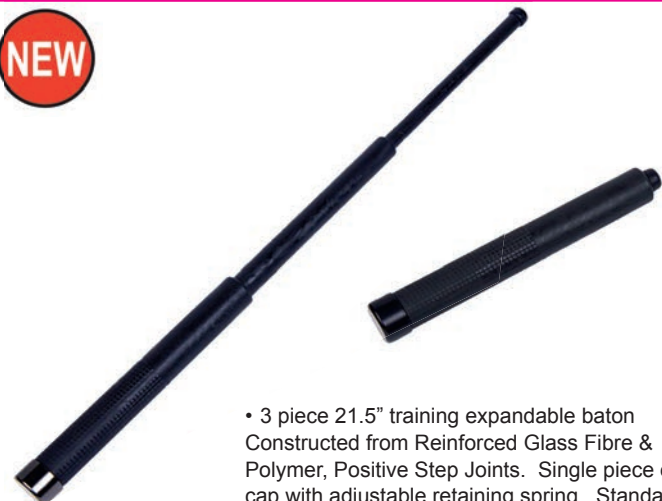

FACT: During combat, your duty belt equipment set-up WILL have a direct effect on your ability to stay alive. Most officer injuries, deaths and department liability occur as a direct result of improperly placed equipment. Is your duty belt set up for survival... or failure? The Hindi Duty Belt SAFETY System guarantees to increase your equipment accessing capabilities by 50% or more! The strategic escalation or de-escalation of force capabilities built into this system, are unparalleled.

- 'Must have' DVD for all Police Officers
- "Tested and proven to be the best"
- This system convincingly demonstrates with lightning speed and precision, how simple and easy it is to access and deploy in a moment, all your essential life-saving equipment - WITH EITHER HAND when YOUR LIFE DEPENDS ON IT!

Code DVD026

- 3 piece 21.5" training expandable baton Constructed from Reinforced Glass Fibre & Polymer, Positive Step Joints. Single piece end cap with adjustable retaining spring. Standard grip. Sizes: 21.5". Weight: 170g.

Code ULT01

NEOPRENE WRIST GUARD

- Neoprene wrist protector for reinforced padding over key pressure points of wrist - fully washable
 - Ideal for transport or training scenario.
- Constructed from high quality neoprene, it's comfortable to wear and fully washable. Provides support to the wrist as well as protection. Available in; Left or Right Handed.

Code NPW163

LEATHER WRIST GUARD

- Ideal for escorting and training duties - Fast and easy to apply
 - Just wrap around your wrist for maximum comfort when escorting prisoners or during training.
- Escorting even compliant prisoners or a long day training can cause handcuffs to chafe and rub your wrist. Our leather wrist guard will prevent any chafing and irritation during training or escorting duties. Leather wrist strap may be used to provide comfort when using handcuffs in an escort /prisoner transport situation. 25cm L X 5cm W

Code LPW080

SPEED TRAINING KEY

- Triple your practice time, unlocks handcuffs in seconds
- Magnets hold them to cuff for repetitive use. Easily removed after training. Fits most standard cuffs (Rigid to special order please call)

Code AA022

WHY REDMAN?

RedMan is the only gear on the market today that is quickly and easily cleaned, spray disinfected, and dried after each user. No one wants to share sweat, blood, and disease-causing micro-organisms. Used according to instructions, RedMan keeps officers safer from blunt trauma and from bloodborne (HIV/AIDS, Hepatitis) and other pathogens. Ask the competition if they can do that!

DOES YOUR TEAM NEED RedMan TRAINING?
SPECIALIST SIMULATION TRAINING COURSES AVAILABLE TO MEET YOUR REQUIREMENTS. TURN TO NITON TRAINING SECTION

| SIZE | HEIGHT | WEIGHT |
| S/M | UP TO 5'10" | UP TO 180lbs |
| L/XL | OVER 5'10" | OVER 180lbs |

• The Student Suit is an important part of the total simulation program, enabling officers to do more than just walk through light contact scenarios. Officers can participate in safe, reality-based training, improving their defensive tactics skills to take back on duty.

The fit and comfort of the Student Suit allows students to get the most out of their training experience. Trauma protection is immediately evident - with maximum protection to the vital areas of the head, and chest. The elbows and knees are flexible, for ease of movement.

Students can also share equipment because it's easy to put on and take off in just minutes using Velcro® strapping. It can be cleaned, spray-disinfected and dried for the next person in minutes -plus the closed cell dipped polyethylene foam creates a barrier that provides safety from blunt trauma and from bloodborne (HIV/AIDS, Hepatitis) and other pathogens. Strapping design makes it a one-person operation.

DISTURBANCE RESOLUTION KITS

D.R.S 360

- The Redman Disturbance Resolution Suit (DRS) is available in 3 options;
- DRS 360: Suit is designed with full body coverage to protect against blunt force injury. It's perfect for cell extractions, riot and crowd control, subject control tactics, low to high-level simulation and other force on force training.
 - DRS 180: The DRS-180 provides critical coverage to torso, legs and elbows against blunt force injury.
 - DRS 90: is the most economical option in front-line duty and training gear.
 - It provides top-of-the-line protection for the most vulnerable areas of the legs and torso

The DRS line is modular, allowing custom configurations. The DRS-360 Full Suit comes complete with the DRS-360 Upper Body and Lower Body. The full suit provides protection and coverage for the chest, back, shoulders, arms, rear, groin, hips, thighs, knees, shins and instep. 3-layer construction.

Inside lining is made of Dartex, a patented, waterproof polyurethane-coated nylon that is easily sanitized and dried. Lining is impervious to bloodborne pathogens, with anti-bacterial, antifungal properties. Inner layers feature closed-cell foam construction with a trauma plate sandwiched between the foam for added protection. Outside layer is covered with Nomex™, making it flame resistant, water resistant and extremely durable. Soft-sided interior and exterior protects both officer and inmate. Inner layer of plastic disperses impact and adds a level of protection. FOR SIZES SEE CHARTS.

WEAPON DEFENCE

- The Suit You Can Shoot At with RedMan - Approved Training Projectiles. Perfect for: Shoot-Don't-Shoot Environments • High Risk Arrest Training
- Edged Weapons. Active Countermeasure Long and Short Gun Transition. Electrical Device Deployment and Use-of-Force. Multiple Attacker
- Full Body coverage - minimal gaps
- Coverage to the head, face, throat, and back of head
- Impact Mesh adds durability for RedMan - Approved Training Projectiles
- Easily cleaned, disinfected and dried after each use

The WDS Instructor Suit has the same lightweight and shock dispersing construction as the XP, but has the added advantage of "Impact Mesh" for durability and use with RedMan - Approved training projectiles. RedMan adds even more protection. The suit also features the newest head gear designed for training with these projectiles. The head gear includes the foam Head with Safety Glasses, a Mask with lens, and the Head Vent Cover. These four items should be worn together for maximum protection. Also new for this line is the Vinyl Collar. Worn under the Body Guard, it provides a layer of protection from misdirected projectiles. The Body Guard Protector helps preserve the front of the Body Guard from abrasions and projectile damage.

What's more, if instructors or students need to share gear, you can do so easily and provide a clean, dry, spray-disinfected suit in 10 minutes. RedMan is the only DT Training gear that offers protection from blunt trauma and from bloodborne (HIV/AIDS, Hepatitis) and other pathogens with easy, nonporous surface cleaning. FOR SIZES SEE CHARTS.
