Thank You.

Thank you for your interest in our products and for the opportunity to serve you. All of us at Niton know you are the reason we have the opportunity to do what we do. In addition, you provide the validation and purpose that motivates us to continue to develop new products and the latest technologies.

In the demanding world of law enforcement, there is little room for error. Performance is paramount. Failure is not an option. For two decades, the distinctive Niton brand has stood for innovative design, function and unparalleled standards of quality value and service.

Today, Niton999 & Niton Tactical manufactures footwear, clothing, tactical & electronic equipment. Each is the result of cutting edge design, advanced manufacturing technologies & exhaustive field testing. The Niton logo reflects an uncompromising standard of quality and value. Niton remains the first choice of law enforcement and security professionals. I know how important quality equipment is to achieving your task. I worked as a military policeman and civil police officer for 26 years. I have relatives and many friends who work in law enforcement and security. In this catalogue, you will find quality products built to a singular standard of quality and value - for those of you who cannot accept less.

As we progress into the future Niton is pushing the limits of technology. New materials are being developed allowing us to further enhance our product lines. This desire to improve assures you that you will always receive the best that money can buy when you choose Niton.

If you or your agency has a new product idea and would like to have it manufactured please contact our design staff. Our custom design department has met the needs of officers from across the UK and abroad for many years and will continue to offer this service as we move into the future. Your advice and support on product development has been instrumental in producing the Niton and Niton Tactical® range of products.

That dedicated men and women who place their personal safety at risk each day in the protection of others prefer Niton products above all others is something of which we are extremely proud. Thanks to all of our customers over the years who have made this company the leader in the law enforcement and security industry in the United Kingdom and beyond.

Tony Deverson
Managing Director

Backpacks

Niton Tactical E.D.C Carry Bag

The Niton design team have manufactured a bag that will carry all your essentials, without being big & bulky.

- **FUNCTION** - Keep all your essentials in one place. The main compartment has a mesh pocket & dividers to hold pens, torches, multi-tools, phones & more.
- A further 5 pockets allow you to carry documents, first aid supplies, and 1 litre drinks bottle, with the zippered special access pocket ideal for carrying a medium sized handgun or baton and handcuffs.
- Extensive MOLLE and Velcro attachments mean that you can add even more pouches and ID.
- **COMFORT** - Stylish design with maximum comfort for long days at work...or exploring on holiday!
- A padded shoulder slide protects your shoulder and prevents the strap rubbing your clothes. The adjustable strap means you can position the bag to suit you. We've even padded the back of the bag to protect you from any protruding items.
- **SECURITY** - Whether working or travelling, keep sensitive items close and secure.
- A quick release buckle on the strap means you can remove the bag instantly in an emergency.

Code NT40005

Travel Bags

Niton Tactical In Flight Carry Bag

The Niton Tactical® In Flight carry bag (IFC) is the perfect travel bag. We've manufactured it to comply with the hand luggage allowance for most airlines (H550 x W400 x D200 mm), but you have the ability to add storage if required.

- Easy to carry - grab handles on the top and side
- Removable padded shoulder strap
- Features MOLLE attachments
- Velcro ID panel on the front - Free Niton Tactical Logo included
- Adjustable padded/zippered front panel. (H420 x W280 x D40 mm)
- Zippered divider in main compartment

We wanted to make sure the IFC bag was convenient for travel, not only because of its size but because of its organisation. Travelling can be stressful enough so the IFC bag allows you to keep everything easily accessible.

We've even included 4 adjustable straps with side release buckles so you can reduce the width of the bag if it's not full. Not only does this save space but it stops your stuff rolling around getting creased!

Code NT40021

this...

Niton Tactical Small 2 Large Travel Bag

The S2L has been designed so that it can be used as a travel bag - it will carry all your documents, Tablet and e-reader in a compact, easy to carry bag, or expanded to carry your clothes & souvenirs.

- Adjustable shoulder strap for easy, hands free carry
- Plenty of pockets and dividers for documents
- 2 large zippered compartments can carry iPads & tablets
- Large bag can be carried with the shoulder strap or grab handles
- The 2 zippered compartments become the end pockets

Main compartment: H340 x W560 x D170 mm

Code NT40019

£29.95

Deluxe Buddy Bag

Niton Tactical Deluxe Buddy Bag

The Niton Tactical® Buddy bag now includes MOLLE attachments so you can quickly and easily add as many additional pouches as you require, and a zip down front compartment for document and stationery storage.

The main lid closes with side release buckles & all the pouches and compartments have Velcro or zippered closures for security. The grab handles and shoulder strap means that the bag is easy to transport and carry.

The Companion Compartment - A zippered compartment on the lid of the bag, specifically designed to take your traffic companion (39 x 17cm)

The Main Compartment - Includes a removable divider with pen pockets so you can organise your kit and uniform - and stop your lunch getting squashed! (H280 x W420 x D200 mm)

The Side Pockets - The two removable pouches with MOLLE attachments are easy to transfer. For example, store first aid supplies in one of the pouches then in an emergency you can quickly remove just the pouch rather than hauling the whole bag (H250 x W400 x D50 mm)

The Front Pockets - The zippered pocket has MOLLE attachments inside and out, and contains compartments for documents, pens, radio or phone etc (H210 x W130 x D40 mm). The MOLLE pouch has a clear panel for ID or company logo (H190 x W130 x D40 mm)

The Niton Tactical® Deluxe Buddy has a Velcro patch on the lid and clear panel on the front so you can clearly display your ID or company logo as and when required. The MOLLE attachments mean you can add, remove or re-configure pouches to suit your operational needs.

The Niton Tactical® Deluxe Buddy Bag has retained the features that made it one of our best-selling bags, but we've made some big adjustments to give you more versatility.

Nite-Blade 800

Niton Tactical Nite-Blade 800 Rechargeable Torch

The Niton Team have designed a torch that really will light up the night. With an 800 lumen output and a range of half a mile.... There will be nowhere to hide!

The NiteBlade has so many features it is perfect for use on patrol or in survival situations. With an ultra-bright 800 lumen output this torch can be seen for half a mile using full power or the SOS signal. It's easy to operate with its large glow in the dark tail cap, and is rugged enough to withstand the rigours of law enforcement.

LED Cree Bulb: LEDs have a life span of 100,000 hours, and using a Cree means you get more lumens per Watt (800 lumens). Because we combine the LED with a high quality reflector there are no black spots - just a focused white beam. The light produced on full power has a range of half a mile!

Functions: The Nite-Blade has 5 functions - 100% power, 50% power, 25% power, strobe and SOS signal. This way you can use the same torch no matter what you encounter on shift. Full power is great for searching, reduced power can be used to save energy for reading, or the powerful strobe or SOS can be used to attract attention or as an alert.

Construction: We have used high grade aluminium to construct the NiteBlade. Aluminium provides a hard wearing, robust structure. The torch was then designed with an anti-roll body (so when you put it down it stays exactly where you left it), and a knurled patterning over the barrel for an easier grip.

The tail cap has been specifically designed so the torch can easily be turned on if visibility is reduced or if you are wearing gloves. As if the large switch wasn't enough, it even glows in the dark so you can locate it quickly. Once the torch is on, tap the tail cap to move to the next function - it couldn't be easier.

Power: The NiteBlade is supplied with 2 rechargeable 18650 batteries. The in-car charger means you can keep the power topped up on the way to work.

Carry: You can carry this torch however is comfortable for you. There is a large clip so it can be worn on the belt, or you can use the Niteize adjustable torch pouch (AA463). For added security while using the torch there is also a strong nylon wrist lanyard.

£150.00

Niton Tactical Patrol LED Torch

Length: 317 mm
Bezel diameter: 56mm
Weight: 394g

The Patrol Torch is incredibly bright which makes it ideal for search or patrol work, and is shock proof to withstand any incident you may encounter.

- The LED Cree bulb provides up to 220 lumens, with a range of 100m, while the anti reflective lens and aluminium reflector provide a continuous beam with no dark spots.
- The simple on/off switch has been designed so that it is easy to find and operate, even with gloves on. Powered by 3 D Cell batteries (NOT INCLUDED) that provide a continuous runtime of up to 2 hours.

The O Ring seals provide extra weather proofing, and the aluminium body has a knurled grip so you can keep a tight grip whatever the weather. The crenelated head unit adds to the anti-roll design, so if you set it down - it will stay put.

Niton Tactical AQUAslide Rechargeable Torch

The **AQUAslide** has a unique magnetic slide switch which allows you to adjust the intensity of the beam with a smooth slide of the thumb. Allowing you to use the same torch no matter what you encounter on shift. Pushing the slide switch forward smoothly takes the beam from low to high intensity suitable for any application. Waterproof to 50 meters.

Length: 145mm
Bezel diameter: 45mm
Barrel diameter: 30mm

LED Cree Bulb: LEDs have a life span of 50,000 hours, and using a Cree means you get more lumens per Watt (700 lumens). Because we combine the LED with a high quality reflector there are no black spots - just a focusable white beam. The light produced on full power has a range of half a mile!

Construction: We have used high grade aluminium to construct the Aquaslide. Aluminium provides a hard wearing, robust structure. The torch was then designed with an anti-roll tail (so when you put it down it stays exactly where you left it), and a ribbed barrel for maximum grip.

Power: The Aquaslide is supplied with a rechargeable 18650 battery and mains charger. The additional in-car charger means you can keep the power topped up on the way to work.

Carry: For added security while using the torch there is also a strong nylon wrist lanyard.

- Premium CREE LED, coated glass lens
- Waterproof to 50 meters
- Aircraft aluminium anodised body
- Ribbed body for maximum grip
- Anti-Roll tail cap with additional lanyard hole
- Lanyard/wrist strap supplied
- Smooth thumb slide magnetic switch
- Adjustable from 2 to 700 lumens

Fusion Baton Pouch

Niton Tactical Fusion Baton Pouch

This baton pouch has been designed to accommodate different configurations of 16" expandable batons, so you can use the same pouch whether your baton has a Hindi or similar grip, standard or safety tip, Autolock or friction lock. The opening has been wider so you can easily sheath the baton, even in a hurry. We then added a strap at the mid point which can be tightened to keep the baton secure.

- 3 different fastenings to accommodate batons with or without Hindi cap
- Adjustable strap for a secure hold
- Press stud fastening at the base so the baton can be sheathed fully extended
- 50mm belt loop
- Suitable for expandable batons
