

## REVOLUTIONISE YOUR BOOTS WITH FITGO®

Fitgo® Twist Lock System allows you to effortlessly adjust the tightness of your boots. Quickly tighten or loosen your boots with one hand, even when wearing gloves. Stays tight all shift long for maximum comfort and ankle support. Designed for convenience and speed, the Fitgo® system ensures you're always ready to move, without the hassle of laces.

### FITGO® ARE EASY TO USE

-  Push the dial to engage the Fitgo®
-  Rotate right to tighten to your preferred comfort level
-  Your Fitgo® will stay tight all shift long, no need to readjust
-  To remove, just pull the Fitgo® dial to release the tension

Your Blueline Fitgo® dial and steel laces should be trouble free. The Fitgo® lacing system requires little or no maintenance, they simply need to be kept clean, and debris free. If your boots do become extremely dirty, take time to dry them out, show them some love with a bit of boot polish and remove any dirt or debris that may accumulate around the dial or lacing system. If the dial becomes stuck or stiff do not force.

If you experience any issues contact us so we can fix it for you.
