

Wall mounted ligature release kit

Safeguarding kits are an essential part of day-to-day life, from halls of residence to campuses and hospital wards the fast deployment ligature release equipment is essential.

Our kits are designed to wall mounted, in open view. They are 'break seal' security sealed to ensure the kit is not tampered with as well as allowing for instant access in an emergency situation.

Our wall mounted kit contains the basic essentials for rapid deployment and safe release of the person involved. This kit contains our bestselling foldable ligature cutter, with its smooth edge and wide gate it will glide through fabric, rope, sheets and most materials. Included is a 'penny washer' to open cubical doors, as well as gloves and face shield for personal protection.

All items are contained in the red, ligature release pouch, which is a grab and go pouch that facilitates fast deployment. The pouch is also useful for belt mounting and limiting the view of the kits contents which is sometimes preferred in secure or high-risk facilities.

Top up, or replacement parts are available to ensure your ligature kits are fully stocked and ready for deployment.

Kits contains;

- Wall mounted box – inc mounting kit & instructions
- Label – can be customised with your own working, company logo or instructions
- Foldable ligature cutter, penny washer, gloves & face mask
- Security seal (replacements can be supplied separately)
